Railway Conductors Protest Against the Peers Bill.

THE ORGANIZATION ACTS.

Grand Division in Session at Atlanta Sends a Protest to the Governor and General Assembly.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 16.—The following telegram from Atlanta, Ga., was received by Gov. Stone today:

To Hon. Wm. J. Stone, and Legislature of Missouri:

ATLANTA, Ga., May 16.—The grand division of the Order of Railway Conductors in session in this city, representing 20,000 conductors in the United States, protest against the enactment of the Peers' fellow-servant bill or any law which discriminates against members of labor organizations in the interest of railway corporations, or that legalizes any contract by which the employer is released from legal liability for injury of an employee on account of any insurance indemnity or benefit except where the amount actually contributes to such benefit or insurance by the employer.

E. E. CLARK,
Grand Chief Conductor.

WM. H. DANIEL, Grand Sec'y.

Davisson's Protest Don't Go.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 16.—The senate held a very short but interesting session today. The only business attempted was a lively debate over Senator Davisson's motion to change the journal so that his protest against the senate's recognition of Senator Morrissey's death could be inserted. The senate refused to allow the protest and adjourned under the rules.

Peers Will Resign.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 16.—Senator Charles E. Peers of Warren county, leader of the fight for a general fellow-servant bill, will shortly resign his seat in the senate. He is sick of politics, and wants no more of it. He is in St. Louis today attending the funeral of Senator Morrissey, but he has stated positively that he will resign.

SHOT IN A BOX CAR.

A Tramp is Made the Victim of a Hunter's Gun Practice.

FORT SCOTT, Kan., May 16.—R. B. Luther, agent for the Santa Fe railroad, while out hunting at Ash Grove, Mo., last week, shot at a mark on a box car on the Memphis road. He hit one of seven tramps, who were sleeping in the car. The tramp is probably fatally injured. Luther obtained from the injured man, Thos. Henry, an affidavit exonerating him from all blame for the accident. Mr. Luther is out on a bond of \$500 and his trial is set for next week. Henry is in the hospital here and Mr. Luther has employed the best physicians and nurses to attend him. The ball entered his abdomen.

WICKED KANSAS.

One of Her Citizens Sends a Warning to the Governor.

TOPEKA, Kas., May 16.—Governor Morrill has received some quaint and curious epistles from different parts of the state over whose destinies he has been chosen to rule, but none more curious than one which came to hand yesterday. It was from a man in Goodland, Sherman county, who signs himself as N. P. Clifford. Mr. Clifford asks the governor to at once appoint a day of fasting and prayer for the people of Kansas. He says that everything is going to the demmition bow-wows and the reason is that Kansas has been forsaken by the Lord. And he does not stop with the ills which we already bear, but says that worse is yet to follow unless

Kansas at once makes her peace with the divine ruler. "The people have forgotten God, and God has forgotten the people," declares this Sherman county prophet of evil, "and we must stop trying to run on our own hook and return to the Lord."

Mr. Clifford then reproduces some history of the world, which shows, he says, that nations and states always fall by the wayside when they get too frisky without the Lord's consent. He says Kansas has grown entirely too frisky, and that the only way to break the drouth is to pray and fast. He adds that he thinks the Lord would look upon a proclamation from the governor for a fast day as an evidence of repentance.

The governor has replied to Mr. Clifford that he does not see the special need for a day of fasting and prayer at this time, and suggests that the Sherman county alarmist assume the task of intercession with the Creator.

THREATENING A PRIEST.

Utterances of Father Phelan Call Forth Many Wrathful Letters.

ST. LOUIS, Mo., May 16.—The Christian Endeavorers will now look to Archbishop Kain, of this city to punish Rev. Father D. S. Phelan for his editorial comments on their annual conventions. Mgr. Satolli, the papal delegate, whom the Endeavorers of Asbury Park, N. J., petitioned to reprove Father Phelan, has written to Rev. J. P. Dawson, the sender of the memorial, that the matter belongs to Archbishop Kain. Archbishop Kain is in the rural parts of his diocese administering confirmations, and could not be seen yesterday. A reporter called upon Father Phelan, who said he had no comments to make, either on Mgr. Satolli's action or as to what Archbishop Kain may say.

He has received many letters denouncing him for his utterances. The latest is from Dr. John H. Seifert, Washington, D. C. He calls Father Phelan's article a "hellborn insult," and declares that he is indignant at the statement made, because his daughter is an Endeavorer. Speaking of his daughter he says: "She is a sincere and humble Christian, and does not go to the Christian Endeavor meetings to see and be with men. Your base, hellish insult is entirely uncalled for, and if I ever get in reach of you I'll let you feel my presence sensibly. I may be in St. Louis next fall."

SHOT DEAD IN COLD BLOOD.

John Patterson, the Tallest Man in Holt County, Murdered.

ST. JOSEPH, Mo., May 16.—News reached here yesterday of the cold-blooded murder of John Patterson, which occurred at Mound City about noon. Patterson was one of the most respected citizens of Holt county, having settled there at an early day and grown wealthy. He owned a hotel at Maitland, which he had leased to J. M. Inks, who failed to properly take care of the property, and Patterson had ordered him to vacate. Inks met Patterson at Mound City yesterday, and the two exchanged a few words, when Inks, without warning, drew a pistol and shot Patterson, who was unarmed. The bullet penetrated Patterson's abdomen and he died in a few minutes.

Inks was arrested and was with great difficulty saved from being lynched by a mob, which quickly formed. The officers managed to get him into a buggy and escape to Oregon, where he was locked up. A telegram received from there says that a mob is feared. Patterson was the tallest man in Holt county, being nearly six feet six inches. He leaves a wife and three children.

Young McGinnis Acquitted.

Quincy McGinnis, son of the late State Senator J. C. McGinnis, of St. Louis, whose family now lives upon their farm in the southern part of Saline county, has had his preliminary examination upon a charge of criminal assault on a young woman. The justice held that the charge was not sustained and discharged the prisoner.

He Is Laying Off.

Barney Curran, of the fire department, is laying off, he having undergone an operation on his eyes. So far the operation has proved a success, and Barney expects to be able to return to work in a few days.

HAS A ROUTE NOW.

The Force at the Postoffice Reduced Today—Further Cut Probable.

Fritz Eitzbach, for several years past the popular and efficient superintendent of carriers at the post-office, was this morning reduced to the ranks, so to speak, and was given the route heretofore carried by Mail Carrier Fred Norton, the latter succeeding Carrier Bob Smith, who is dropped from the force.

The change is just what the DEMOCRAT anticipated a few weeks ago, when it called attention to the visit of Inspector Sutton here to investigate as to the falling off in the receipts from the sale of stamps, stamped envelopes, etc.

TWO ATTRACTIONS.

A Ball Game Saturday, to Be Followed by Matinee Races.

The Webb City ball club will arrive here tomorrow and play with the Future Capitals in the afternoon and also Saturday and Sunday.

The game will be called at 1:30 p. m. Saturday, after which the usual matinee races will take place. There will be three events, viz: A free-for-all trot or pace, a 2:40 trot or pace and a 3:00 trot or pace.

In the free-for-all there will be at least four entries, viz: Collins' "McDorton," Powell's "Star Bashaw," McMahon's "Dexter," J. P. Herrington's "Albino," and a crackerjack by S. C. Fuller.

A number of prizes have been donated and an afternoon of fine sport is assured. Admission to all, 25 cents.

Not a Quorum Present.

The meeting of the Board of Trade arranged for this morning, in the interest of "Missouri on Wheels," failed to bring out a quorum, and a postponement was had until 5 p. m.

HURT BY FROST.

The Grape Crop Is Damaged, But the Peaches Are Safe.

Monday night's frost has caused more damage than was at first anticipated.

Reports from the various fruit and vegetable regions of Missouri and Illinois indicate that hundreds of thousands of dollars damage has been done. It is estimated that the entire local grape crop has been destroyed. St. Louis commission men were visited by a grape grower from Jefferson county, Missouri, a great grape county, and his information was that the fruit was already getting black on the vines. Similar reports come from other sections.

The local grape crop, which finds its way to the St. Louis market alone, is estimated to be worth \$300,000. The local apple crop has also received a severe setback, but peaches are thought to be in better condition, while there seems to be some difference of opinion as to small fruits.

The usually immense potato crop of the Illinois bottoms is sadly wrecked. A good many farmers have purchased other kinds of seeds with which to fill the ground occupied by the potatoes.

Corn is not thought to be much affected, as it was scarcely up. Most all garden truck was killed in and around St. Louis.

His Eyesight Impaired.

A young son of G. C. Rothwell, of near Dresden, met with a painful accident a few days ago, which came near costing him a good right eye. While placing the harness on a horse, a buckle struck him in the eye, making a dangerous wound, which perforated the cornea. He was brought to Sedalia yesterday and placed under the care of an oculist.

RUSSELL SUICIDES.

The Ex-Mayor of Lexington Weary of Living.

A BULLET INTO HIS BRAIN.

The Act Committed Early Last Evening—Despondency Said to Have Been the Cause.

Special to the DEMOCRAT.

LEXINGTON, Mo., May 16.—Last evening at 8:15 o'clock, while sitting in a chair in the dining room of his residence, corner of Main and Seventeenth streets, ex-Mayor C. Ben Russell, an old and well connected citizen of Lexington, placed a 32 calibre Smith & Wesson revolver to his right temple and sent a bullet into his brain. His death must have been instantaneous.

For some time he has been despondent, owing to his failure to get sufficient business to enable him to live as he had been accustomed to. In addition to this, he left letters stating that he was largely in debt and saw no way of paying off his indebtedness, and that this was a heavy burden on his mind.

He had twenty-four letters in his coat pocket addressed to various friends in this city, which shows that death by his own hand was premeditated, and that three or four days had been spent in writing them.

He left a request that his remains should be interred by the Masonic fraternity of which he was a member.

He also requested that six ex-mayors of the city should act as pall-bearers, and named them. He was also a member of the A. O. U. W., and had some insurance in this order. He was a fine business man, possessed in his day of much energy and has done good service as a citizen and public officer. He leaves a widow, four daughters and one son, all grown.

CAN'T STOP IT.

United States Can't Put an End to the Green Goods Business.

A letter addressed to a traveling man was received by him yesterday, and when opened was found to be a green goods circular with the regulation counterfeit clipping from a newspaper to the effect that the sender had stolen the plates in his possession and would furnish genuine treasury notes for a small consideration. The receiver was instructed to telegraph to L. Lockwood, South Bethlehem, Pa., for the goods, to sign his dispatch "Amos 608," which was to be his password and number, and under no circumstances was he to write.

"It's very strange," remarked the traveling man to a St. Joseph Gazette reporter, "that the department can't trap some of these fellows. However, they can't; they have had the best detectives in the country at work on these cases, but that is all the good it does. The green goods men manage to get the greenhorn's money; in fact they have no trouble about that, and send him a package of blank papers in return. There is the address and by sending money to it the sharpers will get it. Let a man go there in person and he will find no one who knows anything about the matter. It's strange."

Found a Dead Man.

Fred Ludemann found a supposed dead man in the street at Fourth and Osage, early this morning, and reported the case to Officer Raiffeisen. Investigation revealed a well gotten up dummy man—an old suit of clothing stuffed with grass, topped off with rubber boots and gloves—and it was not surprising that Mr. Ludemann imagined he had come in contact with a corpse. A match was applied and the "stiff" went up in smoke.

Declines to Serve.

Mr. P. H. Sangree, who was appointed one of the trustees of the free library, has informed Mayor Hastain that he cannot serve. An uncalled for communication in the Enterprise-Sentinel probably had something to do with Mr. Sangree's declination.

THE DEMOCRAT, SEDALIA, MO.

OFFICE, 307 Ohio Street. Telephone 232.

A GRAND presidential possibility was destroyed when Carlisle went into Mr. Cleveland's cabinet.

CZAR REED may be speaker of the next house of representatives, but he will never be president.

THE famous gold brick swindle has bobbed up in Michigan, and a lumberman was done up to the tune of \$10,000.

THE late frosts have been more injurious to fruit than was at first supposed, and in many sections the loss is great.

FELLOW-SERVANT legislation may be defeated for this session, but some records are being made that will not soon be forgotten.

THAT north and south railroad is one of the enterprises that Sedalia needs just now, and any steps in that direction will be hailed with delight.

THE board of trade is in a position to do a great deal for Sedalia, but the property owners must furnish the sinews of war for the campaign.

Ir Jefferson City had built that bridge ten years ago, and then built a town at the south end of it, the demand for capital removal might have been less unanimous. But it is too late now.

ALMOST every county in Illinois has sent free silver delegations to the democratic state convention. A large element of the republican party, too, in every western state is for the free coinage of the white metal.

THE duty of securing manufacturing enterprises is one that the wide-awake business men of Sedalia must not lose sight of just now. The opportunity to secure these trade producing enterprises will appear from time to time and should never be neglected.

SOME Illinois Mulhatton has sent out the report that the free coinage democrats are looking to Hill as their presidential candidate. Unfortunately for Hill, he sacrificed his chances by his support of the most obnoxious features of the present administration.

THERE may be no truth whatever in the report that George Gould is after a seat in the United States senate, but there is nothing in the life of the man so far that would prevent the belief that he would prove a big improvement on many of the members of that body.

THE increase in wages in the Carnegie steel works is another gratifying evidence that our republican friends were in error when they were denouncing the "democratic tariff" as destructive to American industries. It will be remembered that it was the reduction of wages in these works, under the McKinley bill, which caused the dreadful riots and the loss of life at Homestead.

THE DEMOCRAT is pleased to know that arrangements are being made to run excursion trains into Sedalia regularly every week for the accommodation of those who wish to investigate the advantages which this city offers to home hunters and investors. To know Sedalia thoroughly is to admire the enterprise, the energy and the public spirit of her people, and the more visitors who come within our gates the better it will be for the Queen City.

THE quantity of mail matter handled at the postoffice in this city is increasing, but under the policy adopted by some business men of buying stamps from outside parties the receipts are reduced, and still

further reductions may be looked for in the working force. Of course this causes delay in handling mail matter, but it should be thoroughly understood that that delay is no fault of the postoffice force. If the policy of cutting off the receipts of the office is persisted in still further inconvenience may be expected.

SEDALIA bases her claims for the state capital upon her superior advantages as a city, and upon her accessibility from all sections of the state. The same reasons that impelled a change from St. Charles to Jefferson City, seventy years ago, now demand another change, and, knowing that she will be greatly benefited by reason of being made the capital, Sedalia proposes to erect the state buildings free of cost to the taxpayers. New buildings will have to be erected in a few years anyhow, and by moving the capital to Sedalia the state will secure such buildings free of cost.

THE wisest thing the members of the general assembly can do is to compromise upon the details of the election bill and give the people an efficient law for the protection of the ballot box. When the members of the house announced that they would insist upon the Filley bill or nothing they antagonized public sentiment in the state. Mr. Filley, while taking high rank as an expert practical politician, has never become famous as an election reformer, and the people of the state naturally distrust a law that was framed by a political boss and put forward in antagonism of the work of a non-partisan committee of good citizens.

A Bridge for Jefferson City. The board of directors of the Jefferson City Bridge and Transit company last night entered into a contract with A. J. Tullock, of Leavenworth, Kan., owner of the Missouri Valley Bridge and Iron Works, for the construction of a steel highway bridge across the Missouri river at Jefferson City. It is to cost \$200,000, and is to be completed by March 1, 1896. Work is to commence on Wednesday, May 22, and that day will be a public holiday in Jefferson City to suitably celebrate the event.

Wants His Children. Gerald Smythe, a former Sedalia telegrapher, who through his attorney essayed to release his children, Gereldine and Charles, aged respectively 3 and 6 years, from the St. Louis House of Refuge through a writ of habeas corpus, has had his case placed in statu quo by Judge Withrow, who on Wednesday remanded the children to the further custody of the House of Refuge pending a hearing of the matter today.

No Hard Times There. The St. Louis Globe-Democrat has been during the hard times paying 10 per cent dividend every three months, and has not made any attempt to reduce expenses. The capital stock of the Globe-Democrat is \$500,000, and 10 per cent quarterly is therefore \$200,000 per year. Of course, in prosperous times the paper makes more money.

Anyone who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionary establishment. Some months ago, on leaving the heated work room to run across the street on an errand he was caught in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle in the house.

ATTEMPT TO RAVISH.

Presence of Mind and Nerve Alone Saved the Girl.

An unknown tramp made an effort to ravish the 18-year-old daughter of Tom Bearden, of Ash Grove, about a mile and a half southeast of that city yesterday afternoon at about 2 o'clock, says Wednesday's Springfield Democrat, and about thirty minutes later the entire community were in arms, and a posse headed by Dr. Dorrell were searching for the fiend. The posse failed to find him last night, and had they succeeded it is not unlikely that they would have taken the law in their own hands and disposed of him in Texas horse thief style.

Miss Bearden was a short distance from her home yesterday afternoon going to a strawberry patch. She had to pass under a high railroad culvert to get to the berries, and there the tramp surprised her. He threw her down and choked her to some extent, but was unable to prevent her from screaming. In some manner she succeeded in releasing herself from the would-be ravisher's grasp and started running towards her house, but the tramp was evidently afraid to follow.

When she reached the house she fainted and fell on the floor, but in a few minutes consciousness was restored and she told her father of the adventure. She was unable to give any description of her assailant further than that he was a white man and a tramp.

Tom Bearden, the father, armed with a Winchester rifle, started on a hunt for the fiend as soon as the girl was able to tell what had happened. He also told everyone he would meet of the attempted rape, and in a few minutes the news had spread all over Ash Grove, and the entire community were armed and in pursuit.

Many of the persons who joined the hunt were mounted and out until late last night, and the search will be continued today. Ash Grove was wild with excitement over the matter. The few who stayed in town would do nothing but talk of the dastard's attempt and speculate on his chances for life when captured. Business was practically suspended.

Taken to Prison. Sheriff Sam Hadlock and Deputy Hopgood, of Polk county, took four prisoners through Sedalia to the penitentiary last night to serve sentences as follows: Henry Lynch, horse stealing, two years; Thos. Clark, incest, he having seduced his own daughter when only 11 years old, ten years; Chas. Henry and J. W. Sherman, two years each for burglary.

A Burglar Seared. The police were summoned to the residence of Jas. Glass, Seventh and Osage streets, last night, by the report that suspicious characters were prowling around, but the suspects had disappeared when the officers arrived.

Wedded Last Night. Garland A. Truel and Miss Jennie L. Anderson were married at Green Ridge last night; while J. S. Rissler and Miss Hattie Lane were married at the same time at the home of the bride near Beaman.

Willing to Accept \$1,000. J. West Goodwin will not appeal from the verdict of the jury in which he was awarded \$1,000 against Dr. H. W. Wood, but the latter has not determined yet as to what he will do.

One-Half Raised. About \$300, or one-half enough, had been raised up to this morning for the purpose of securing the annual encampment of the Second regiment, M. N. G.

Will Baptize Sunday. There will be baptizing at Georgetown Sunday, May 19th, and Rev. R. L. Binkley, of the A. M. E. church, will preach at 3 o'clock.

Only One Case. John Connell, a section laborer from New Franklin, pleaded guilty in the police court this morning to drunkenness and was fined \$5.

House Wanted. I want a house of 5 or 6 rooms in good condition, with plenty of yard room, front and back. Address D, DEMOCRAT office.

Received His Commission. H. Rives Camp, the real estate hustler, last evening received his commission as a notary public.

Defeated by Nevada. The Nevada club defeated the Ponca Indian team Tuesday afternoon by a score of 12 to 5.

CAROLINE WEEKLY.

PIERCE'S GUARANTY CURE.

Some Meat That Has Not Advanced.

Notwithstanding the fact that all classes of fat stock have advanced out of sight of all expectation, the Newton Meat Co. wish to call the attention of the public generally that they have not advanced the price on their prime Sunday roast beef, and they are selling more of those fine roasts than ever, for they are something that is hard to get elsewhere. For this reason we have the largest amount of cold storage by one-half than any two other markets in Sedalia, and we cut our prime roasts off several days before they are offered for sale and put them away in our mammoth refrigerators and when they come out and are sent out to our customers they never fail to give the very best satisfaction. This is something that cannot be had elsewhere in Sedalia.

In fact all of our meats are held in our cold storage vaults for several days before they are offered for sale. This is why they give much better satisfaction than you get elsewhere.

We notice one fact which will give an idea of what estimation is placed upon our meats. Whenever any family is expecting company and want something extra and prime they always call on Newtons to furnish the meats. Why is this? You all know.

Come in. You will always receive the best of treatment and the choicest meats. Telephone 120.

Arranging for Excursions.

At a meeting of the Real Estate Exchange, yesterday afternoon, Ben Hammett and W. J. Cobb, representing St. Louis real estate men, were present to make a proposition to run at least two excursion trains per week from all parts of Missouri and from other states, the trains to bring not less than 3,000 persons into Sedalia each week.

As a committee to draw up a contract and make all other necessary arrangements between the real estate men of St. Louis and the real estate men of Sedalia the following gentlemen were appointed: Judge Z. F. Bailey, J. M. Offield, Jos. Donohue and J. B. Quigley.

Entertained the Indians.

G. B. Miller, of East Tairst street, entertained the members of the Ponca Indian ball team at his residence last night. There was some excellent music, after which refreshments were served.

How to Save Money.

The spirits of Jefferson, Calhoun and Lincoln are returned to earth, and with old-fashioned fine toothed combs of 16 to 1 silver teeth are 'raisin' the har' on the bald heads of gold bugs and bank sharks; but, if their work is a booming success, it is no better than the victory of the low prices of everything offered at Blair Bros.' to clothe a man or boy.

BURGLARS CAPTURED.

How a Young Missouri Postmaster Ran Them Down.

H. M. Graves, the postmaster and merchant at Woodville, Mo., who conducted the search and succeeded in overhauling one of the men who burglarized the postoffice and Graves Bros' store at Woodville, Madison county, the night of March 8, will go to Hannibal Sunday night to appear against the defendant in the federal court there. Mr. Graves is a young man, rather slender, but possesses skill and determination to a marked degree.

When the burglar, Mason, was apprehended at Stoutsville, near Paris, Monroe county, he and his companion made a desperate resistance, and it was only after he was shot nearly to death that he was captured. His companion escaped, and even while lying on what was apparently his deathbed, Mason stubbornly refused to give his name or tell anything about him.

With hardly a clew to begin the search on, Mr. Graves and a few friends took the road leading toward Moberly in their search for the robbers. A number of suspicious characters were overhauled, questioned and turned loose.

Finally a lot of pennies were found in the road. Then an investigation at houses further down showed that a couple of strangers had passed who exchanged knives, razors, etc., for food. Graves went to Moberly, Elliott, Madison, Milton and the adjoining towns for miles around, sometimes with a team, sometimes on a handcar and sometimes a foot, and was just thinking he had lost the track when he learned the parties he was looking for were at Stoutsville.

When captured Mason had on him \$46.80 worth of goods from Graves' store, such as handkerchiefs, knives, jewelry, etc. The proceeds from the postoffice had been discarded when the hunt got too warm, but a grip has been found since Mason's arrest by Sheriff Umstad, of Monroe county, and clearly identified as one carried by Mason and his pal, in which were 1,080 copper cents and a large number of postage stamps belonging to the department.

After Mason serves such time as may be imposed by the court at Hannibal, should he be convicted there, he will be tried for the burglary of Graves Bros' store.

THEY OVERDO IT.

Chicago Papers Not Sticking to Facts in Their Telephone Stories.

The annual meeting of the Harrison Telephone company was held early last week in Chicago and the next day the papers of that city contained lengthy articles describing the increase and prosperity of Harrison exchanges and the general decadence of Bell exchanges in various parts of the country, says the Topeka Capital. If the statements they make concerning other cities are no nearer to the facts than the figures they use about Topeka these reports are liable to do the Harrison company more harm than good.

The Chicago Tribune says: "It is reported that in Topeka the Harrison company has 550 subscribers while the Bell company has been reduced to sixteen."

The real facts in the case are that the Harrison company has a list of 350 subscribers and the Bell, instead of being extinct, has 498 bonafide subscribers and is giving them all excellent satisfaction. In addition to this the Missouri & Kansas Telephone company has just completed their latest improved telephone exchange at Kansas City, which will be formally opened about the 18th of this month. They have extensive Bell exchanges at St. Joseph and all neighboring Kansas towns and have arranged for the expenditure of \$125,000 in improving and extending their system during the year 1895.

High School Contract Let.

The school board met at 4 o'clock yesterday afternoon and the contract for building the new high school was conditionally awarded to Theodore Lacoff, of Nevada. The board has not yet decided whether to use stone or brick, and on this clause is based the condition of Mr. Lacoff's contract. The price was not made public.

An Editor Arrested.

Some months ago W. A. Pyne, of St. Francis, Kas., arrived at Paris, Mo., and established a populist paper which he called the Plain-dealer.

Tuesday Deputy United States Marshal Shelby, of Chillicothe, son of Gen. Shelby, went to Paris and arrested Pyne on a charge of forging a pension certificate in Kansas

in 1892. He was taken away the same day, leaving his paper to be gotten out by his wife.

He has had an up-hill pull, having been up before the federal grand jury twice on the same charge.

ROCKVILLE ITEMS.

A splendid rain fell here Wednesday, greatly to the delight of our people.

S. M. Doyle's bank and the Bank of Rockville are doing a splendid business.

We congratulate ourselves on having the finest and most commodious Odd Fellows' hall in Bates county.

Rockville is improving wonderfully—four or five new stone buildings will be completed in our city by the 15th of September.

Mr. Toliver has rented the north store room in Baldwin's opera block and has it filled with a fine lot of spring wagons, buggies and surries.

John Mack has just completed his residence on West Park avenue. He is now possessor of a handsome home, modern in every particular.

Our carpenters, plasterers, painters, paper hangers and lumber merchants have all the business they can say "grace over" at the present writing.

J. W. Anderson, our "up to date" druggist, is building a nice three-room addition to his already magnificent residence on North Missouri avenue.

The Commercial house has been doing a "land office" business during the last month and its efficient clerk, Wm. Ed. Ashby has had but little time to take it easy.

L. M. Wilson has just opened up a lively stable, and his competitor, Mr. A. J. Ooley, gives him a cordial welcome, and says Rockville is the best town in Southwest Missouri.

William Kamm, knight of the anvil, has thoroughly renovated his residence property, and has built a modern porch on the south. He has the most attractive home in Rockville, and a business that redounds much credit to the gentleman.

Mr. Thomas P. Satterwhite, of Sprague, Mo., has taken charge of the lumber yard, and is a gentleman of fine qualifications. He says he is well pleased with our city, and will in the near future build a fine residence here. He is a nephew of Tom and Gill Satterwhite, of Dresden, Mo.

J. W. Fettes, of Amsterdam, Bates county, Mo., was in our city yesterday looking up a mill site. He gave us his plans and specifications and the terms upon which he would build us a nice flouring mill, 50 barrel capacity. His offer was accepted, and unless some unforeseen complications "set in" we will soon have a large mill running in Rockville day and night with a 50 horse power engine, the whistle of which will, no doubt, be a great benefit in waking up some of our good fathers after their better half has made the fire and cooked breakfast for them "in the morning."

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He reached to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden drug store and procured a bottle of it. It gave Mr. Carter prompt relief, and I can vouch for its having cured me."

DON'T STOP TOBACCO

ITS INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure.) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Office of PIONEER PRESS COMPANY, C. W. HORNICK, Supt. St. Paul, Minn., Sept. 7, 1894.

Eureka Chemical and Mfg Co., La Crosse, Wis.

Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and to-day I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly,
C. W. HORNICK.

RAILROAD RUMBLE.

Removal of the "Katy" Offices from Denison.

E. E. CLARK RE-ELECTED.

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

Tomorrow morning the general offices of the M., K. & T. railway of Texas will leave for Dallas and St. Louis, says the Denison Herald of Tuesday.

To the former city goes Auditor D. S. Willard and force of seven, General Superintendent Maxwell and force of five, General Freight Agent Allen and force of eight, Treasurer Halstead and force of three, General Agent Krause and force of ten, General Passenger Agent Crush and force of four, General Engineer Petheram and force of nine, Traffic Claim Agent Galbreath and one clerk, in all 65 people.

General Manager Allen and force of five men will take train No. 4 for St. Louis.

Conductors Re-Elect Clark.

At the meeting of the Order of Railway Conductors at Atlanta, yesterday, Grand Chief Conductor E. E. Clark was re-elected unanimously. Martin Chancey, of Meadville, O., was elected grand secretary and treasurer, to succeed W. P. Daniels, by a vote of 196 to 108.

Coach, Cab and Caboose.

Conductor Tom Butts took the Missouri Pacific pay car west this afternoon.

The Missouri Pacific pay car came in from St. Louis yesterday afternoon.

Chief Engineer C. A. Wilson, of the M., K. & T., was in the city this morning.

Superintendent F. D. Adams, of the American Express Co., left last night for St. Louis.

Master of Transportation M. Sweeney, of the M., K. & T., came up from Parsons last night.

John Blue, the Missouri Pacific hostler, is on the sick list, and Dug Nelson is working for him.

General Manager W. B. Doddridge, of the Missouri Pacific, passed west to Kansas City on train No. 1 yesterday afternoon.

S. Graham, a messenger from Kansas City, will arrive this afternoon to take a run for the American Express Co. between here and Denison.

Ex-Conductor L. M. Barnard, who is attending the O. R. C. convention at Atlanta, Ga., has the thanks of the DEMOCRAT for papers from there.

A freight train on the St. Louis, Iron Mountain and Southern was wrecked by a broken wheel at Irondale, Mo., yesterday, eight cars being demolished.

Andrew Smith, a Pole, was caught between two cars of lumber near Jacksonville, Ill., yesterday, and his legs so badly crushed that his recovery is doubtful.

The Big Four is now daily handling on its system 140 to 150 car loads of dressed meats and provisions, and of this business fifty to sixty car loads originate on its own lines.

General Yardmaster Fleming, of the M., K. & T. at Parsons, accompanied by his family, has gone to St. Louis, called there by the dangerous illness of his mother, who resides in that city.

Simon Berry was fatally and his brother, James, seriously injured yesterday by being struck by a Burlington train at Peoria, Ill. A team of horses they were driving was killed.

The general headquarters of the Missouri, Kansas and Texas railroad in Texas were removed from

C. E. Potts, night watchman at the M., K. & T. hospital, is reported by the Morning Capital to have resigned his position and departed last night for New Orleans to cash a \$7,500 winning ticket held by him in the Louisiana Trust Co. lottery, he having held one-tenth of the ticket that drew \$75,000.

The M., K. & T. delivery wagon, together with the household effects of John Claire, were shipped to Dallas, Texas, Monday night, says the Parsons Sun. It looks as though John was in Texas for keeps. He dislikes to leave Parsons, but in order to maintain his excellent position on the pay-roll of the company he thought it was best that he should say good-bye to Parsons. A. B. Smith has been given Claire's old position in this city.

Changed Hands.

The Capital Meat Market, No. 1111 Ohio street, is sold to E. H. Adams, who will run a strictly first-class Meat Market and handle only the finest and choicest cuts. Mr. Dan Cannon has been engaged to superintend the cutting, and delivery of all orders promptly, and D. Johnson will be general solicitor.

Will Serve 20 Years.

Jacob Baker, who escaped from the California jail last week by sawing through the bars of his cell, was captured by J. C. Crocker, of Aurora Springs, who will receive the \$200 reward.

Baker had a 20-year sentence to serve in the "pen" for incest. At the time of his capture he was quietly fishing on the Osage river.

DAVISSON'S KICK.

Objects to a Committee Attending the Morrissey Funeral.

WANT A SOLDIERS' HOME.

The Legislature Asked to Contribute One Day's Pay to a Most Worthy Object.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—Senator Davisson, of Harrison county, created a sensation in the senate this morning by entering a protest against any committee from the senate attending the funeral of the late Senator Morrissey. He moved to reconsider the vote by which a committee was appointed and declared that the character of the dead senator was such as not to warrant public recognition. His motion to reconsider was tabled.

A Soldiers' Home.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—Dr. S. H. Headlee and Comrades Miller and Coppedge, all G. A. R. men of Phelps county, are here to ask the legislators to contribute one day's pay to the fund for a Soldiers' Home for G. A. R. men. They propose to buy the magnificent home of the late Wm. James, of St. James, known as the "Iron King." It will accommodate 100 old soldiers.

The Fellow-Servant Bill.

JEFFERSON CITY, Mo., May 15.—The fellow-servant bill was up for consideration in the senate yesterday afternoon. The Peers bill was up for engrossment, but the friends of a real fellow-servant bill, under the leadership of Yeater and Kennish, succeeded in materially amending it.

Briefly this is what the bill as amended provides for: It provides that any person or corporation employing more than twenty-five persons and engaged in any hazardous business is liable to action for damages for injuries incurred through the negligence of a fellow servant. It provides that employer and employee may enter into contracts providing for insurance against injuries received by employees, but imposes a fine of \$1,000 upon the employer for attempting to intimidate or coerce an employee into making the insurance contract, and this insurance is no bar to recovery of damages by common law. In fact, a fellow-servant has the same rights as other men. One-half of the cost of the insurance shall be borne by the employer.

Section 11 provides that this act shall not apply to any person or persons using agricultural or other machinery which is not propelled by steam or electricity. An amendment secured by Senator Love, of Jackson, provides indemnity under the insurance contract of 75 per cent of the amount of wages the employee was earning at the time of the injury.

Senator Peers started in to make a bitter speech in the midst of which the senate adjourned. Yeater will probably reply today and pay his respects to the lobby.

No Business in the House.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—The house was in session just as the day when it adjourned until Monday at 10 o'clock in respect to the late Senator Morrissey. No business was transacted. A resolution to cut off the Sunday pay of officers was voted down, when the Yeater majority found itself victorious it forced an adjournment.

May Be a Compromise.

JEFFERSON CITY, Mo., May 15.—Reference election committee report as was expected yesterday. Senator Mott's absence, home attending the funeral of the late Senator Morrissey, has a tendency to delay the report. Although no agreement has been arrived at it is understood that the committee is on the verge of a fair compromise bill. Members of the Kansas City committee put in an appearance today, as was expected.

T. Kent and Franklin Ferriss, attorneys for the St. Louis safety committee, appeared before the committee to answer any objections brought forward against the safety bill. "I have every reason to be-

lieve," said Mr. Kent last night, "that the prospects for an election bill are exceedingly bright. The members of the conference committee seem to be upon excellent terms with each other. It looks to me as though an agreement was sure to follow."

OUR CIRCUIT JUDGE.

Governor Stone Will Visit Sedalia Before Making the Appointment.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—Your correspondent interviewed Governor Stone today about the Pettis county judgeship. The governor was asked if he had changed his mind about the method he had selected of making the appointment. "No," said he, "I intend to do exactly as I said last winter. I will go to Sedalia in person and have interviews with all persons interested about the proper person for judge of your circuit. I want, as I said before, to choose the very best man qualified for the place that I can get to accept it. I will endeavor to find out who that man is in my own way. Anybody desiring to communicate with me on this subject can do so freely when I come to Sedalia, and it will be a pleasure to me to hear every one."

CIRCUIT COURT.

A Replevin Suit on Trial—Judgments for Receiver Latimer.

The time of the circuit court was occupied Wednesday in hearing the evidence in the replevin suit of W. H. Rhodes against W. A. McNulty for the possession of the dam of the horse McDoel, with a record of 2:15 1/4. The case is still in progress. Sangree & Lamm and W. S. Jackson are attorneys for the plaintiff, and Judge W. S. Shirk for the defendant.

Other entries were made during the day as follows:

W. A. Latimer, receiver, vs. W. V. Galbreath et al; note; dismissed as to Cyrus Newkirk; judgment by default for \$6,614.70 at 8 per cent.

W. A. Latimer vs. J. C. Thompson; attachment; judgment for \$544.99 at 8 per cent.

Hannah Caroline Baker vs. Wm. W. Embree; damages; judgment for plaintiff by consent for \$1,000.

A FIRE IN A CAR.

Two Colored Boys Sent to Jail for Sixty Days Each.

Frank Taylor and Abraham Hurt, the latter of Warrensburg and both colored, were discovered by Constable Gossage Wednesday when just in the act of starting a fire in a Missouri Pacific car in the yards here.

The boys had stolen a quantity of waste from the company, and the match was in the act of being applied when Constable Gossage gathered them in.

They were arraigned in Justice Burr's court, charged with the theft of the waste, and were sent to jail for sixty days each. Had it not been for their youth they would have been prosecuted on the charge of attempted incendiarism.

A CLOSE CALL.

Frank McAllister Stunned by a Bolt of Lightning.

As Frank McAllister, the bartender, was passing along West Main street, Wednesday morning, and when in the vicinity of the Sedalia Ice Manufacturing company's plant, he was stunned by an electrical bolt and had an extremely narrow escape from death.

Mr. McAllister says that the current seemed to have struck him about the top of the head and plowed its way through his system till it reached the ground where he was standing. As soon as the current reached the earth, however, he began to recover, and was able to resume his journey to his place of business.

Will Marry Saturday.

Rev. F. W. Sneed, of Minneapolis, Minn., is to be married Saturday morning at 10 o'clock to Miss Eulalie Hockaday, of Columbia.

An official investigation of the county offices in Pike county has unearthed a shortage of \$9,000 or \$10,000 in fees belonging to the county.

TWO MEN SENTENCED.

Both Were Guilty of Cold-Blooded Murders.

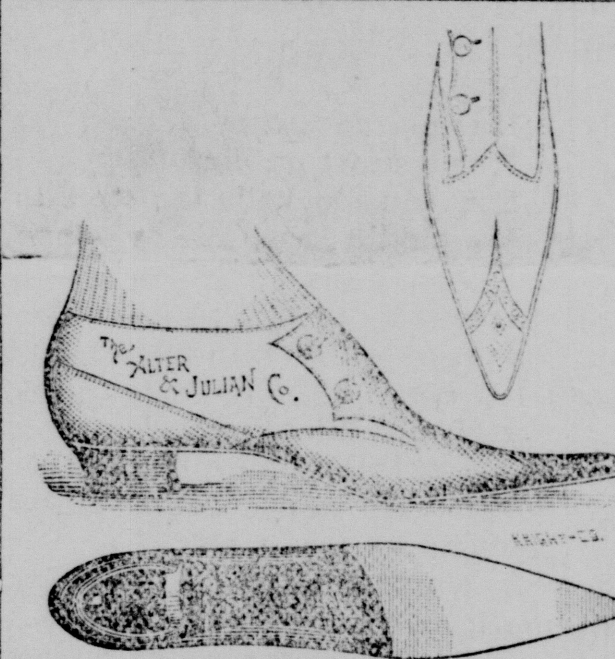

ONE KILLED HIS FATHER.

The Latter Sentenced to Prison for Life—The Other Given a Ten Year Sentence.

At Clinton, yesterday, Judge J. H. Lay passed sentence upon two murderers, both having had their cases taken to Henry county on a change of venue.

William Arnwine, a Lawrence county man, who shot his son-in-law, and was convicted in the May, 1894, term of the Henry county circuit court, was given a sentence for ten years in the penitentiary, says the Democrat. Arnwine quarreled with his daughter's husband, and when the latter, standing on his own door step, ordered the old man to go away, Arnwine drew a revolver and in the presence of his daughter, Mrs. Keating, shot her husband, George Keating, dead.

The trial just a year ago resulted in a verdict of "guilty of manslaughter in the second degree," but sentence was arrested upon a technicality, Judge Lay sustaining a motion in arrest of judgment made by the defense because of an alleged defect in the indictment. This law point was by the prosecution appealed to the supreme court, which lately held against Arnwine, and he was accordingly remanded for sentence. He is an old man now, and it is very doubtful if he lives out

the term for which he was sentenced.

On the evening of March 1st, 1894, Lone Oak township, in the southern part of Bates county, was shocked by a terrible crime.

William Long, an aged farmer, was assassinated as he sat reading in his dwelling. His son George, who gave the alarm, stated that he found his father in a dying condition, the back of his head and body literally riddled with shot. The old man's iron constitution enabled him to rally, but, although he lived nine days after the shooting and was rational up to the moment of his death, he could not tell by whose hand he fell or what motive prompted the deed.

Neighboring young men were arrested, but no case could be made against them. The next day after the murder, enough suspicious circumstances were discovered to warrant the arrest of George Long upon the suspicion of the crime of slaying his own father. He strenuously maintained his innocence and finally secured a change of venue to Henry county.

Sheriff Collyer took the accused to Clinton Monday and he was arraigned, when, by consent, he withdrew his former plea of "not guilty" and pleaded "guilty" of murder in the second degree. Judge Lay thereupon sentenced Long to the penitentiary for life, speaking at some length upon the enormity of his crime.

Some Paying; Others Not.

Receiver Latimer informed a DEMOCRAT reporter Wednesday that a number of stockholders in the defunct First National bank had paid their assessments but there were still others, he said, who had notified him that they would not pay until the courts had compelled them to.

A Party in the Country.

A party of sixteen young people drove out to the residence of Mr. and Mrs. Bandell, five miles west of the city, Tuesday night, and spent a

most delightful evening with games, music, etc., after which choice refreshments were served. Those who made the trip were:

Misses Idel Mason, Mattie Thompson, Josie Miller, Della Myers, Belle Miller, Minnie Williams and Miss Hanson; Messrs. William Frost, H. S. Rief, Marvin Jackson, Selby Quaintance, Charlie Mason, Wm. Drexler, Walter Mason and Mr. and Mrs. J. M. Mason.

Married at the Court House.

Philip Craig, of Lexington, and Mrs. Kate Hale, of Clinton, were married by Judge Nichols at the court house Wednesday, and left on the local freight train at 11 o'clock a. m. for Lexington.

Will Hold Examination.

An examination will take place at the court house on August 5, next, for one free scholarship in any department, school or college of the Missouri State University at Columbia.

Teachers Elected Friday.

The teachers for the public schools for the ensuing year will not be elected before 4 o'clock Friday afternoon, and possibly not until that night.

MISSOURI CROPS.

Considerable Damage Was Done by the Frost.

The Missouri weekly crop report bulletin says: "From the 5th to the 10th the temperature averaged from 9 to 14 degrees above the normal, but on the evening of the 10th a cool wave spread over the state and the mean temperature of the 11th was from 6 to 12 degrees below the normal. Light frosts occurred on the morning of the 11th, doing slight damage to tender plants in some of the northern counties."

"Drought still prevails in a number of the western and several of the east-central and southeastern counties, greatly injuring or retarding all crops. Considerable damage to fruit and crops over small areas by wind and hail is reported in several counties."

"In the central and western section the condition of wheat has fallen off during the week, owing to the ravages of chinch bugs and lack of moisture. Corn is reported a good stand in all sections and cultivation is now general."

Late reports from several of the northern counties state that frost did some damage to beans, potatoes and other tender vegetation on the morning of the 12th.

Horse Thief Sentenced.

Geo. Weaverling, a horse thief, was yesterday arraigned before Judge Lay at Clinton and sentenced to six years' imprisonment in the penitentiary on three indictments returned against him.

Will Not Pay.

At a meeting of the stockholders of the defunct First National bank, Tuesday night, a majority decided to let Receiver Latimer collect the 75 per cent assessment at the end of a law suit.

Railway Conductors Protest Against the Peers Bill.

THE ORGANIZATION ACTS.

Grand Division in Session at Atlanta Sends a Protest to the Governor and General Assembly.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 16.—The following telegram from Atlanta, Ga., was received by Gov. Stone today:

To Hon. Wm. J. Stone, and Legislature of Missouri:

ATLANTA, Ga., May 16.—The grand division of the Order of Railway Conductors in session in this city, representing 20,000 conductors in the United States, protest against the enactment of the Peers' fellow-servant bill or any law which discriminates against members of labor organizations in the interest of railway corporations, or that legalizes any contract by which the employer is released from legal liability for injury of an employee on account of any insurance indemnity or benefit except where the amount actually contributes to such benefit or insurance by the employer.

E. E. CLARK,

Grand Chief Conductor.

WM. H. DANIEL, Grand Sec'y.

Davison's Protest Don't Go.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 16.—The senate held a very short but interesting session today. The only business attempted was a lively debate over Senator Davison's motion to change the journal so that his protest against the senate's recognition of Senator Morrissey's death could be inserted. The senate refused to allow the protest and adjourned under the rules.

Peers Will Resign.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 16.—Senator Charles E. Peers of Warren county, leader of the fight for a general fellow-servant bill, will shortly resign his seat in the senate. He is sick of politics, and wants no more of it. He is in St. Louis today attending the funeral of Senator Morrissey, but he has stated positively that he will resign.

THREATENING A PRIEST.

Utterances of Father Phelan Call Forth Many Wrathful Letters.

St. Louis, Mo., May 16.—The Christian Endeavorers will now look to Archbishop Kain, of this city to punish Rev. Father D. S. Phelan for his editorial comments on their annual conventions. Mgr. Satolli, the papal delegate, whom the Endeavorers of Asbury Park, N. J., petitioned to reprove Father Phelan, has written to Rev. J. P. Dawson, the sender of the memorial, that the matter belongs to Archbishop Kain. Archbishop Kain is in the rural parts of his diocese administering confirmations, and could not be seen yesterday. A reporter called upon Father Phelan, who said he had no comments to make, either on Mgr. Satolli's action or as to what Archbishop Kain may say.

He has received many letters denouncing him for his utterances. The latest is from Dr. John H. Seifert, Washington, D. C. He calls Father Phelan's article a "hellborn insult," and declares that he is indignant at the statement made, because his daughter is an Endeavorer. Speaking of his daughter he says: "She is a sincere and humble Christian, and does not go to the Christian Endeavor meetings to see and be with men. Your base, hellish insult is entirely uncalled for, and if I ever get in reach of you I'll let you feel my presence sensibly. I may be in St. Louis next fall."

A Bridge for Jefferson City.

The board of directors of the Jefferson City Bridge and Transit company last night entered into a contract with A. J. Tullock, of Leavenworth, Kan., owner of the Missouri Valley Bridge and Iron Works, for the construction of a steel highway bridge across the Missouri river at Jefferson City. It is to cost \$200,

000, and is to be completed by March 1, 1896. Work is to commence on Wednesday, May 22, and that day will be a public holiday in Jefferson City to suitably celebrate the event.

CAN'T STOP IT.

United States Can't Put an End to the Green Goods Business.

A letter addressed to a traveling man was received by him yesterday, and when opened was found to be a green goods circular with the regulation counterfeit clipping from a newspaper to the effect that the sender had stolen the plates in his possession and would furnish genuine treasury notes for a small consideration. The receiver was instructed to telegraph to L. Lockwood, South Bethlehem, Pa., for the goods, to sign his dispatch "Amos 608," which was to be his password and number, and under no circumstances was he to write.

"It's very strange," remarked the traveling man to a St. Joseph Gazette reporter, "that the department can't trap some of these fellows. However, they can't; they have had the best detectives in the country at work on these cases, but that is all the good it does. The green goods men manage to get the greenhorn's money; in fact they have no trouble about that, and send him a package of blank papers in return. There is the address and by sending money to it the sharpers will get it. Let a man go there in person and he will find no one who knows anything about the matter. It's strange."

SHOT DEAD IN COLD BLOOD.

John Patterson, the Tallest Man in Holt County, Murdered.

St. JOSEPH, Mo., May 16.—News reached here yesterday of the cold-blooded murder of John Patterson, which occurred at Mound City about noon. Patterson was one of the most respected citizens of Holt county, having settled there at an early day and grown wealthy. He owned a hotel at Maitland, which he had leased to J. M. Inks, who failed to properly take care of the property, and Patterson had ordered him to vacate. Inks met Patterson at Mound City yesterday, and the two exchanged a few words, when Inks, without warning, drew a pistol and shot Patterson, who was unarmed. The bullet penetrated Patterson's abdomen and he died in a few minutes.

Inks was arrested and was with great difficulty saved from being lynched by a mob, which quickly formed. The officers managed to get him into a buggy and escape to Oregon, where he was locked up. A telegram received from there says that a mob is feared. Patterson was the tallest man in Holt county, being nearly six feet six inches. He leaves a wife and three children.

SHOT IN A BOX CAR.

A Tramp Is Made the Victim of a Hunter's Gun Practice.

FORT SCOTT, Kan., May 16.—R. B. Luther, of Kansas City, a commercial agent for the Santa Fe railroad, while out hunting at Ash Grove, Mo., last week, shot at a mark on a box car on the Memphis road. He hit one of seven tramps, who were sleeping in the car. The tramp is probably fatally injured. Luther obtained from the injured man, Thos. Henry, an affidavit exonerating him from all blame for the accident. Mr. Luther is out on a bond of \$500 and his trial is set for next week. Henry is in the hospital here and Mr. Luther has employed the best physicians and nurses to attend him. The ball entered his abdomen.

Young McGinnis Acquitted.

Quincy McGinnis, son of the late State Senator J. C. McGinnis, of St. Louis, whose family now lives upon their farm in the southern part of Saline county, has had his preliminary examination upon a charge of criminal assault on a young woman. The justice held that the charge was not sustained and discharged the prisoner.

Wedded Last Night.

Garland A. Truel and Miss Jennie L. Anderson were married at Green Ridge Wednesday night; while J. S. Rissler and Miss Hattie Lane were married at the same time at the home of the bride near Beaman.

MISSOURI HANGINGS

At St. Joseph, Hermann and Clayton Yesterday.

JOSEPH BURRIES' CRIME

Was an Assault on a Child—Ed Murray Killed Conductor Fitzwilliams.

Special to the DEMOCRAT.

St. JOSEPH, Mo., May 11.—Joseph Burries was hanged at 10:52 o'clock this morning for a criminal assault on Bertha Potter, a seven year old girl. He was baptised in the Catholic faith this morning. On the scaffold Father Dominick Wagner said that the negro realized the seriousness of the crime he had committed and was willing to die. Burries made a long speech and prayed for the judge and jury who convicted him.

This was the second legal hanging for attempted outrage ever held in the state, the first having been a negro named Price, who was convicted of a similar crime in Saline county several years ago.

The Second Execution.

Special to the DEMOCRAT.

HERMANN, Mo., May 11.—Ed Murray, the murderer of Conductor Fitzwilliams, was hanged at this place at 8 o'clock this morning and at 8:08 the doctors pronounced him dead. Murray died game.

The priest, Rev. Amb. Janssen, was with him all morning and to him the murderer confessed to having put out the light in the car on the night of the murder.

Just before the execution Murray wrote a letter to his sister and at 7:50 the death warrant was read to him.

On the gallows Murray had only a few words to say and the last words he uttered were: "Gentlemen, kill me as quick as you can."

The following is what Murray had to say when he was interviewed last night and which he asked to have printed.

"I was born and raised in Howard county, Mo., and my mother died when I was a mere youngster. I have always been very particular who I associated with, and would rather talk to a white man four hours than to talk fifteen minutes to a negro.

"I have great respect for white folks, as I was raised by them. But let that be as it may, you want to know what I have to say in regard to my crime.

"Miss Lizzie Schuble did not identify me as being one of the murderers of Conductor Fitzwilliams. I am innocent of the crime for which I am to be executed in the morning. If I had been a white man and had money, like the double murderer, Duestrow, I would never have been convicted of murder in the first degree.

"When I told them who the right murderer was they did not want to believe me.

"If I would tell them that God Almighty was coming next week they might believe that; but if the governor allows me to be murdered for other negroes' deeds, I have to go.

"I had no idea that the governor would allow me to be executed on the evidence introduced. If I should be murdered tomorrow morning the governor's act shall stare him in the face until his dying day. Oh, may the good Lord forgive him."

The Third Execution.

St. LOUIS, Mo., May 11.—James Murray, colored, who was convicted with his brother Ed of the murder of a conductor September 23, 1893, committed for the purpose of robbery, was hanged at Clayton, St. Louis county, at 6:55 o'clock this morning. He went to the gallows like a craven, and maintained his innocence to the last.

TO SUCCEED THE COOKS.

A New Gang of Outlaws Being Formed in Indian Territory.

Reports from the Cherokee nation state that a new gang of outlaws is forming on Grand river. The alleged leaders are Tom Root and Ed Reed, both of whom are scouting.

Root is a big negro of the Cherokee Bill style, and played a prominent part in the robbery of the M., K. & T. train at Blackstone switch last October. He was indicted in the United States court for murder and train robbery.

Ed Reed is a son of the notorious Belle Starr and Jim Reed, who was

a member of Jesse James' gang. He is an intelligent young Indian and has done time at Columbus, O., for horse stealing. He announced, on his return, a year and a half ago, that he had reformed, and for a year he led a respectable life. He rode for several months as posse to a deputy marshal and also served under a deputy of the Muskogee court.

A month ago information was filed against him, charging him with being implicated in the robbery of a car load of cattle at Wagoner, I. T. Since then Reed has been scouting, and, if he has joined a gang, will doubtless do most of the planning for it.

The other members of the gang were with Cherokee Bill, Jim French, Verdigris Kid and Root. There are quite a number of smaller lights of these gangs still at large, and they will probably flock around two such leaders as Root and Reed. The Grand river country, where the gang is said to be gathering, is very wild and desolate. In some places there are ten or fifteen miles of dense forests, unbroken save by cow trails. The heavy undergrowth and deep, rocky gorges make it an excellent hiding place. It was one of the strongholds of Dalton, Starr, Cherokee Bill and Jim French's gangs. Few inhabitants of that country are either in sympathy with outlaws or live in fear of them, so outlaws are not molested.

SENATOR VEST'S FAD.

Said to Be a Collector of Rugs and Bric-a-Brac.

Senator Vest is an auction fiend, says the Washington Post. This does not mean that he goes to all the Saturday morning sales and bids on broken-down household goods, for the senator is a man of fine tastes and cares nothing for a bargain unless it appeals to his artistic fancy.

He is a regular attendant at all art sales and auctions of fine bric-a-brac, and he is regarded as a very safe man to follow. There is usually a friendly rivalry between Senator Vest and "Nat" McKay, the well-known republican protectionist and millionaire shipbuilder.

"I am always willing to pay a dollar more than Vest for anything he cares to bid on," says McKay. "His taste is remarkably good and his judgment of values I regard as much superior to my own."

This is, indeed, praise for Sir Hubert, for McKay's bachelor home here contains a beautiful collection of objects of art, including a small fortune in oil paintings, good water colors, rare etchings and fine old prints.

A KANSAS ZEPHYR.

Two Towns on the Central Branch Visited Saturday Afternoon.

Special to the DEMOCRAT.

ATCHISON, Kas., May 11.—A cyclone swept over Vermillion and Vleits, small towns on the Missouri Pacific's Central branch railroad, at 4 o'clock this afternoon, going in a southwesterly direction.

Houses were unroofed and barns blown over, but no loss of life as yet reported.

DUESTROW SANE.

The St. Louis Murderer Held Responsible for His Crime.

St. LOUIS, May 11.—The jury in the circuit court at Union, which for the past week had been hearing the insanity case of Dr. Arthur Duestrow, the millionaire of this city, who in February, 1894, shot and killed his wife and child in cold blood, found him sane this morning. This is the second time the case has been tried, the first resulting in a disagreement.

Hessian Fly Damaging Wheat.

Wheat on the uplands in Stoddard county is greatly damaged by the Hessian fly. The fly made its appearance in the wheat several weeks ago, and some fields of wheat have been completely ruined by it. In places the wheat is heading at a height of 6 inches, the fly having completely stopped the growth of the crop. Wheat in low lands is but little damaged.

Gen. Hayman's Will Probated.

The will of the late Gen. S. B. Hayman was admitted to probate Saturday. The property, all personal, is bequeathed to the sons of the deceased, Wayne and Frank C. Hayman, who are made executors, and letters were granted.

The Next Poultry Show.

The next state poultry show will be held at the Exposition building in St. Louis, December 9 to 14 inclusive, in connection with the St. Louis poultry club.

THE FIFTH REUNION.

What General Jo. O. Shelby Says Regarding It.

The fifth convention and reunion of the United Confederate Veterans will be held in the city of Houston, Texas, on the 22nd, 23rd and 24th days of May, 1895.

Gen. Jo O. Shelby, major general commanding the Missouri division, has perfected arrangements with the Santa Fe railroad for a rate not to exceed \$22.75 for the round trip from Kansas City to Houston, tickets good from the 18th until fifteen days after the reunion. Gen. Shelby says:

"This will undoubtedly be the largest convention of the United Confederate Veterans ever held, and we may never see so many confederate soldiers together again. Many comrades will meet there who have not met in thirty years.

"Many will answer to their names who will not again respond to roll call until the reveille of the resurrection shall awaken them to live again in immortal youth. This reunion will quicken the slowly beating pulse and brighten the pathway across which eternity's shadows are lengthening."

"Ties which were formed while shoulder to shoulder facing storm after storm of shot and shell upon many a stricken field, bind their hearts together, and they should not fail to embrace this opportunity, which may be their last, to meet and recall those stirring scenes.

"All confederate soldiers, their wives, daughters and friends, are cordially invited to accompany the delegations from the camps of the United Confederate Veterans to Houston. It is hoped that as many ladies will attend as find it all possible to do so."

SHOULD BE WHIPPED.

A Judge's Opinion of Newspaper Men Who "Write Up" People.

Alderman T. Logan Hecker was fined \$1 and costs at Lexington, Ky., Wednesday, for assaulting W. A. Farnau, a newspaper correspondent, with a cane. R. Jewell, the man who said, "Politics is h—l," presided over the court, and in his opinion, which consumed 15 minutes, bitterly rebuked the newspaper men of Lexington.

He denounced certain newspaper men for trying to protect their lives a year ago when they had asked the aid of the police, and these officials had declined to furnish the protection. He said that an article reflecting upon a man justifies the man in attacking the author.

"When a man assaults a newspaper man who writes him up," said the judge, in his extended opinion, "he is doing it in self defense, and I think the smallest fine ought to be assessed against him. In this case it would be just to dismiss the defendant, but I will fix the fine at \$1 and costs and suspend the capias."

Farnau was dismissed, it being shown by the alderman's own testimony that the correspondent only tried to defend himself after Hecker had assaulted him. In the course of his long tirade against Lexington newspaper correspondents, Jewell said that he had helped to prepare an ordinance, which is now before the council, which will give him the power to fine and imprison newspaper men.

RAVAGES OF A NEW PLAGUE.

A Strange Disease Causes Many Deaths About Gallatin, Mo.

GALLATIN, Mo., May 10.—A strange disease which baffles the skill of the local physicians is prevalent in the northeastern section of this (Davies) county. About thirty deaths have resulted from its effects within the past six weeks and quite a number of cases are yet uncured. The physicians pronounce it black erysipelas and claim it is not contagious.

The cases, however, have nearly all been similar and in most instances have proven fatal. It is most malignant among women and children. The symptoms in most cases are an eruption of the skin similar to that accompanying erysipelas, a high fever and swelling of the face, ears and tongue. The latest report received is to the effect that there are no new cases and it is thought that those who are now suffering will recover.

The Golden Wedding Banquet.

The golden wedding of Rev. and Mrs. J. M. Van Wagner was celebrated Friday night, as outlined in the DEMOCRAT of that day, the following programme being carried out: Piano solos, by Miss Elsie Townsley and Mrs. H. W. Grant, of Chattanooga, Tenn.; recitation, by Mrs. J. R. Loomis, of Osborne, Kansas; recitation by Miss Grace

Loomis; a gift in gold from the children of Rev. and Mrs. Van Wagner, presented by J. R. Loomis in a neat speech.

Before the bountiful repast was served, a number of grand children were baptized by Rev. J. M. Van Wagner. The occasion was a thoroughly delightful one throughout.

WHERE TO HITCH.

Another Contributor Expresses His Views on the Subject.

To the Editor of the DEMOCRAT.

The following are a few of the many objections why the public square would prove an unfit place for the farmers to hitch their horses:

- It is not necessary.
- It is against public policy.
- It would blockade the street.
- It would be a public nuisance.
- It would draw flies and English sparrows.
- It is out of date in all well regulated cities.
- It would ruin the pavement and become a mud-hole.
- It would convert the center of town into a feed stable.
- It would spoil the clothes of passing men, women and children.
- It would put the stranger in mind of the backwoods town of early days.
- It would bespatter the fine granite walk with mud and dirty water.
- It would create an unhealthy atmosphere in that part of this beautiful city.
- In fact, it would do more, in less time, towards creating a bad impression of the Queen City than any other one thing Sedalia could possibly do.

COMING TO SEDALIA.

The St. Louis Committee Arrange for an Excursion.

Henry W. Overbeck and E. J. Foy, a committee from the St. Louis City Drummers' Association, visited Sedalia Saturday and arranged with Joe D. Sicher, of Association Park, to run an excursion to Sedalia, 1,500 or 2,000 strong, two weeks from last Sunday—May 26th.

On the same day an excursion will be run from Kansas City to Sedalia, and it is assured that from 500 to 800 strangers will be the city's guests.

Messrs. Overbeck and Joy returned home at noon Saturday. The former informed the DEMOCRAT that at least two trains would be run from St. Louis, and possibly three. The excursionists will leave St. Louis at 11 o'clock Saturday night and reach Sedalia in time for breakfast.

The Sedalia Military band has been engaged to meet the visitors at the depot on arrival and will also furnish music at the park during the day.

This will be the first of a number of excursions that are to be run to Sedalia within the next few months, and it goes without saying that the Prairie Queen will leave nothing undone to make pleasant the sojourn of the visitors.

BONDS APPROVED.

The Board of Trade Adopts Resolutions.

BUYERS ARE PROTECTED.

A Most Hearty Endorsement of the Bond Issue by Conservative Business Men of the City.

One of the most important meetings of the board of trade was held in the directors' room of the Third National bank at 10 a. m. Monday. The matter of most especial importance was the hearty endorsement given to the bond plan of the Commonwealth Land and Development company in the following resolutions which were unanimously adopted by the board of trade:

RESOLUTIONS.

WHEREAS, The Commonwealth Land & Development company has issued a series of bonds based upon one thousand acres of land, platted as "Capital Addition" to the city of Sedalia; and,

WHEREAS, The Board of Trade appointed a committee to investigate the same; and, after a full investigation by said committee, this board considers that the investors in the same are well protected against loss in any case, and that said bonds are a good and safe investment; and,

WHEREAS, At the solicitation of the Commonwealth Land & Development company and the Board of Trade, the Missouri Trust Co., a financial institution of large capital and unquestioned integrity, has consented to act as trustee for the issue of said bonds and all trusts and trust funds connected therewith.

Therefore, be it Resolved, That the Board of Trade does hereby recommend this said issue of bonds, believing them to be the best investment of the kind ever offered to the citizens of Missouri.

SEDALIA BOARD OF TRADE,
R. H. MOSES, Pres.

R. H. GRAY, Sec'y.
Adopted May 13th 1895.

The Board of Trade has the exclusive sale of these Commonwealth Land & Development bonds in Pettis county, and same can be purchased at any of our banks or at the office of the secretary.

Z. F. Bailey was elected director to fill the vacancy on the board caused by the resignation of L. D. Hopking.

W. L. Porter, Z. F. Bailey and A. C. Baldwin were appointed to arrange plans for "Missouri on Wheels" and report to a meeting of the Board of Trade.

The hearty endorsement the board has given to the bond issue will cause these bonds to be largely sought by investors and will aid materially in the work of raising the capital guarantee.

Sedalia must now go to work in earnest and each individual property owner do his utmost to aid the board of trade and the Development company.

HE WAS CALLED DOWN.

"Do Your Duty or Resign," Say Madison Democrats.

FREDERICKTOWN, Mo., May 13.—At a mass meeting of the democrats of Madison county, held pursuant to the call of the county committee, the following resolutions were adopted:

First—That we instruct our state senator, Goodykoontz, to represent his constituents of this county by voting for any good fellow-servant bill, and for the safety committee election bill and for all bills attempting to drive the lobby from the legislative halls of Missouri, which lobby has been a disgrace to the state; and in the event he refuses, we hereby request him to resign.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden drug store and procured a bottle of it. It gave Mr. Carter prompt relief, and I can vouch for its having cured me."

Death of Robert Craig.

Robert Craig, aged 26 years, who was pardoned from the penitentiary the first of last week, died at 6 o'clock Saturday night at the home of his uncle, Thos. Davis, Twentieth and Montau streets, of consumption, and was buried Sunday afternoon.

ARE PAYING UP.

First National Stockholders Who Don't Want Litigation.

Receiver Latimer, of the defunct First National bank, Tuesday morning received a check for \$1,875 from an Illinois banker and stockholder in the suspended institution, this amount being his 75 per cent. assessment on the stock held by him, and which Comptroller Eckles ordered to be paid before Wednesday night—May 15th.

Mace Brown, of Sweet Springs, was in Sedalia Monday and informed Mr. Latimer that he did not propose to resist the payment of the assessment made upon him; and other stockholders there have decided likewise, so that \$11,000 will be paid in from that town and section alone within the next few hours.

Hon. James Hagerman, the well-known Kansas City attorney, arrived here Tuesday afternoon to confer with Receiver Latimer and the Sedalia stockholders in regard to the assessment. The latter at first decided to permit the receiver to bring suit against them, but it is thought possibly the intention to indulge in litigation will be abandoned.

STRIKE LEADER KILLED.

"Jack Smith" and a Companion Shot to Death at Altman, Colo.

DENVER, Colo., May 14.—Martial law prevailed last night at Altman, in the Cripple Creek district, in consequence of the shooting of Jack Smith, former leader of the disaffected miners. Smith shot out all the lights in Victor. He was ordered out of town by Marshal Kelly. Smith opened fire and was backed by George Popst. Kelly reserved his fire and then drew down on both men. At the first shot Popst was killed, and the second brought down Smith.

The real name of the deceased was Johnson. He came from one of the most noted families in the south. His father was editor of the leading democratic paper of Arkansas before the war and was democratic nominee for governor in 1860. Johnson's mother was a Newton, whose father was one of the Whig members elected from that state. He was a brother of Admiral Newton, of the United States navy, and a relative of the Crittendens and Allens of Kentucky. Johnson was educated at the public school of Little Rock and was nominated to West Point, but failed to pass examination on account of his mischievous nature. Since then he has cast his lot in the west, having at various times visited every camp on the continent, and during the Cripple Creek campaign took a prominent part in fortifying Bull Hill and setting at defiance the entire National Guard of Colorado and 10,000 deputy sheriffs, who were held in check through the superior engineering tactics of the deceased. Yesterday a year ago he fled to escape the deputies and only returned through a spirit of bravado. His full name was June J. Johnson.

Smith's friends swear that they will avenge his death. The wildest excitement prevails. Every weapon to be found is being confiscated by the civil authorities.

Whooping Cough.

There is no danger from this disease when Chamberlain's Cough Remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of the paroxysms of coughing, and insures a speedy recovery. There is not the least danger in giving the remedy to children or babies, as it contains no injurious substance.

SMALL BUT EFFECTIVE.

Was the little Monitor that met the Merrimac at Hampton Roads. So too are Dr. Pierce's Pleasant Pellets, effective in conquering the enemy—disease. When you take a pill it's an important point to have them small—provided they have equal strength and efficacy. You find what you want in these little liver pills of Dr. Pierce. They're put up in a better way, and they act in a better way, than the huge old-fashioned pills. What you want is a "small" pill, all out of sorts—grumpy, thick-headed, and take a gloomy view of life, is these Pellets to clear up your system and start your liver into healthful action. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels, are prevented, relieved, and cured. Put up in sealed glass vials, and always fresh and reliable.

JAMES WILLIAM CRAIG, Esq., of Georgetown, Ky., says: "My wife thinks your little 'Pleasant Pellets' are the greatest pills out."

A Fugitive Recaptured.

Will Woodward, who for the second time escaped from the State Reform school at Boonville a few months ago, was recaptured in East Sedalia Monday night, after Officer Walker had fired three shots to scare him. He was then taken back to Boonville by Superintendent Drake this morning.

The Award Made.

The Morning Capital was Monday evening awarded the printing of the financial statement of the county, and it will also be printed by the DEMOCRAT, with a condensed statement printed in the Journal, thus giving it the widest possible publicity.

It is predicted that there will be an advance in the price of lumber before long.

ST. LOUIS wants both the national conventions next year. What's the matter with Kansas City?

A REPUBLICAN journal says that Senator Cockrell has joined the silver forces. Correct. But he joined them twenty years ago and has been a good fighter ever since.

THE opponents of free coinage of silver are in the field with a goldbug argument which they entitle "Coin's Financial Fool." These gentlemen have "fooled" the American people so long that they naturally select that title for a pamphlet that can only be effective when it deceives.

"COIN'S Financial School," as the name implies, is a publication intended to give instruction on the money question. "Coin's Financial Fool" is the properly named effort to answer the arguments contained in the first named publication. The goldbug choice of titles is unfortunate and will be resented by the people.

SEDALIA is proud of the friendship manifested toward her by the country press of the state. The editors of these weekly journals are usually men of energy and enterprise, and they admire a town which goes forward and accomplishes something, and whenever they get a chance they feel like saying a good word for such a community.

THE jury in the Duestrow case, at Union, decides that the defendant is sane and must stand trial for the murder of his wife and child. The verdict is a tonic that has been badly needed. Too many criminals with wealth enough to employ shrewd counsel and able experts have gone scot free where poor men would have been hung.

ALREADY there seems to be a disposition to enter Hon. J. L. Pace, the present efficient warden of the penitentiary, in the race for the democratic nomination for state auditor. Col. Pace, whose home is at Butler, is one of the best known democrats in the state and deservedly ranks high as a business man. Should he conclude to make the race he will develop remarkable strength as a candidate.

CONGRESSMAN U. S. HALL is reported to have said in an interview in Washington recently that "it would not be safe to predict whether Missouri will send a delegation pledged to a free coinage candidate" to the national democratic convention. If Mr. Hall is trying to "hedge" on the silver question he had better get an appointment to a life position from Grover, for the old Second district will have no use for a congressman who does not stand bold and upright for the immediate restoration of silver to its place in our monetary system.

WHY can't we have a new jail? Pettis county is perfectly able to build a suitable prison in which to confine malefactors. The taxpayers have had their attention called to the subject by grand jury after grand jury until there seems to be little difference of opinion on the subject. A reasonable investment

prison and workhouse combined where those who have violated the law can be safely kept and at the same time compelled to perform hard labor as a punishment for crime.

THE DEMOCRAT today prints a card from Hon. John T. Heard contradicting the report that his friends were urging his appointment to a position in the treasury department. Mr. Heard is emphatic in stating that he is seeking no office. His health is not good and his private business will demand all of his time and attention. This may be regarded as authoritative and effectually disposes of the rumor.

WHEN the president tells us by word and example that an officeholder under the government is not at liberty to criticize the administration, he destroys the force of any endorsement such officials may give to the administration or its policies. Hence, the "opinions" of our foreign ministers on the money question will not have a feather's weight with the American people. If they are not free to criticize they waste time in commending.

INDIVIDUAL senators and representatives are making records at Jefferson City, and that these records are being thoroughly understood by the people can be seen from the resolutions adopted by the Madison county democrats wherein they demanded that Senator Goodykoontz vote right or resign. The people are with Governor Stone in this fight, and they thoroughly understand the animus of the abuse heaped upon the governor by the lobby creatures.

THE Post-Dispatch pays Senator Yeater the following deserved compliment: "Senator Yeater, of Pettis, is always depended upon on the floor of the senate to take the starch out of the combine senators. He is a fighter from start to finish, and Goodykoontz and the other Filley 'me toos' have had a touch of his qualities that makes them give him a wide berth. He never flinches, and is ready at all times to tackle the lobby and take all responsibility for it."

WHATEVER may be the result of the extra session the people of Missouri will remember that Governor William J. Stone had the courage to challenge the railroad lobby and the corrupt politicians of St. Louis and Kansas City by calling the general assembly together to pass better election laws and a measure of relief to railroad employees from the harshness of the common law. When the governor did this he took his position boldly on the side of right and justice, knowing that he would make himself a target for abuse, misrepresentation and vilification.

SEDALIA, which has been claiming that the "new capital" will not cost the people of the state anything, is already asking donations of material from every county in the state. And that the people will not vote for a removal that costs anything is proven by the fact that at the last election they almost invariably voted down every proposition that meant an outlay.—Pacific Transcript.

Sedalia has asked no sort of "donations" from anyone. The patriotic suggestion has been made that a piece of timber from every county in the state be worked into the new capitol, and the DEMOCRAT knows the people of Franklin county too well to believe that they would regard such suggestion as being a request for donations. The new capitol should be built of Missouri material throughout. It will be a source of pride to the people, and it will be built free of cost to the taxpayers of the state. If the capital guarantee is not put up as required by law, then Sedalia does not ask for a single vote in her favor. But if it is put up she expects the vote of progressive Missourians.

THE republican party is, of course, the party of true bimetalism, but there will be no 16 to 1 free silver coinage endorsed by the republicans; they want honest and sound money—a dollar worth 100 cents, one which, when it is paid to the wage-earner, will always have the same purchasing power. The republican party favors both gold and silver, but not at the swindling ratio of 16 to 1, according to which the people are robbed to benefit a few silver mine owners, Jefferson City Courier.

Well, now, that is refreshing! It is so nice to have a thing settled so long in advance of a national convention. But if the republican

party is so careful of the wage earner, why did it provide one kind of money (gold) for paying interest to the bondholder, and another kind (depreciated paper with 50 cent purchasing power) in which to pay "the wages" of the soldier who risked his life? The financial history of this country under republican rule is the darkest blot upon that party's record. Lincoln saw the danger, and warned his associates of it! Thad Stevens saw the shame and wept over it! Better pass over or around that "honest dollar" and discuss the tariff or something else.

THE demonetization of silver by the gold standard advocates has made it impossible to accurately determine now what would be the true commercial ratio between silver and gold if both were given the same rights at the mints. Until both are freely coined no one can authoritatively say what the true ratio is and the only practicable plan is to adopt the ratio that prevailed when last silver was freely coined. But under no circumstances should bimetalists quarrel among themselves as to the ratio. First restore to silver its function as a money metal. Then, and not until then, can the true ratio be determined.

THE esteemed Gazette thinks "the years 1890 and 1891 were two of the most prosperous this country has enjoyed for many years." The public remembers, however, the great complaint that was heard during those years and the thousands who were out of employment and in need of the necessities of life. The political tidal wave which swept the country in 1892 was caused by the hard times, business depression and universal distrust of the party that was in power in 1890.

ONE of the southern iron companies sold 100 tons of pig iron the other day for delivery at Liverpool, says the Kansas City Times, and another has dispatched sales agents to Spain and Italy. The signs are that in the near future the United States will be making the pig iron for the world, and the plea for protection will be regarded as an evidence of insanity. The release of American industry from the bondage of McKinleyism was a great advantage in industrial life on this side of the water.

ALL the talk about Mr. Cleveland being nominated for the presidency in 1896 by the democracy is the rankest rot. If he is nominated by any convention it will be a combine of the single gold standard republicans and democrats. The democrats of the country are opposed to Mr. Cleveland's financial views and are unalterably opposed to a third time in the White House for any man. The monarchical element of the east will furnish the only supporters that the Cleveland candidacy will be able to muster.

THE Commonwealth Land and Development company proposes to give Messrs. Kinealy and Myers all the law they want and has accordingly brought suit against them in the Cole county circuit court charging them with conspiracy to injure said company. Damages to the amount of \$50,000 is asked by the company.

THE state capital was removed from St. Charles to Jefferson City. The stock argument used against removal at that time was just what Jefferson City is using now—"real estate speculation." Of course Sleepy Hollow had forgotten the campaign, but the laugh is on the locality just the same.

THE Jefferson City Courier objects to the late game of base ball on the ground that it was "professional" against "amateur." Well, that is the old fight over again. Sedalia is a professional town, an up-to-date town, while Jefferson City is amateurish in everything.

It is one thing to misrepresent a business enterprise. It is quite another thing to attempt to substantiate charges in court, as the parties who have attacked the Commonwealth Land and Development company will find to their sorrow.

THE DEMOCRAT today publishes a brief interview with Governor Stone on the subject of the circuit judge-

ship. The Governor states that he intends to visit Sedalia and use every effort to determine who is the best man for the place.

FELLOW-SERVANT legislation is having a rocky road at Jefferson City just now. Railroad employees should learn a lesson from this year's experience and insist upon candidates pledging themselves to support the measure.

THERE is great destitution among the coal miners in Osage county, Kansas. The mines are closed down and the business men of the towns have carried the miners as long as they can afford to do so.

THE Hume Exchange has a well written article in favor of moving the capital to Sedalia, and publishes in connection with the article a double column picture of our handsome mayor.

THERE is more improvement going on in Sedalia this spring than in any other town of the size in the west. It is substantial improvement, too.

CAPITALISTS are surveying for a railroad south from Springfield. If they will head this way they will receive a cordial welcome.

THE government expenses for the fiscal year ending July 1st, will exceed the revenue by \$55,000,000.

SEDALIA will give her thousands of visitors a royal welcome on the 26th.

BURGLARS CAPTURED.

How a Young Missouri Postmaster Ran Them Down.

H. M. Graves, the postmaster and merchant at Woodville, Mo., who conducted the search and succeeded in overhauling one of the men who burglarized the postoffice and Graves Bros' store at Woodville, Macon county, the night of March 8, will go to Hannibal Sunday night to appear against the defendant in the federal court there. Mr. Graves is a young man, rather slender, but possesses skill and determination to a marked degree.

When the burglar, Mason, was apprehended at Stoutsville, near Paris, Monroe county, he and his companion made a desperate resistance, and it was only after he was shot nearly to death that he was captured. His companion escaped, and even while lying on what was apparently his deathbed, Mason stubbornly refused to give his name or tell anything about him.

With hardly a clew to begin the search on, Mr. Graves and a few friends took the road leading toward Moberly in their search for the robbers. A number of suspicious characters were overhauled, questioned and turned loose.

Finally a lot of pennies were found in the road. Then an investigation at houses further down showed that a couple of strangers had passed who exchanged knives, razors, etc., for food. Graves went to Moberly, Elliott, Madison, Milton and the adjoining towns for miles around, sometimes with a team, sometimes on a handcar and sometimes a foot, and was just thinking he had lost the track when he learned the parties he was looking for were at Stoutsville.

When captured Mason had on him \$46.86 worth of goods from Graves' store, such as handkerchiefs, knives, jewelry, etc. The proceeds from the postoffice had been discarded when the hunt got too warm, but a grip has been found since Mason's arrest by Sheriff Umstadt, of Monroe county, and clearly identified as one carried by Mason and his pal, in which were 1,080 copper cents and a large number of postage stamps belonging to the department.

After Mason serves such time as may be imposed by the court at Hannibal, should he be convicted there, he will be tried for the burglary of Graves Bros' store.

WICKED KANSAS.

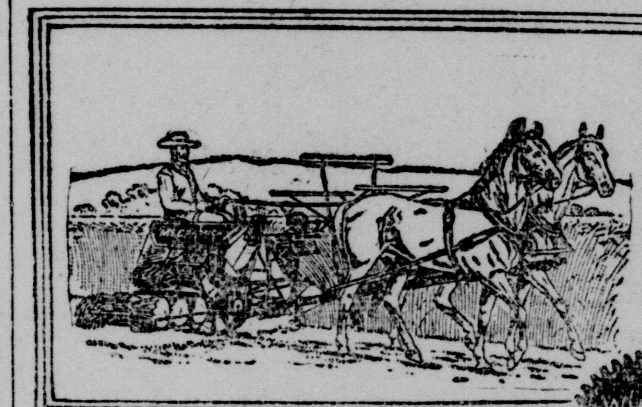

One of Her Citizens Sends a Warning to the Governor.

TOPEKA, Kas., May 16.—Governor Morrill has received some quaint and curious epistles from different parts of the state over whose destinies he has been chosen to rule, but none more curious than one which came to hand yesterday.

It was from a man in Goodland, Sherman county, who signs himself as N. P. Clifford. Mr. Clifford asks the governor to at once appoint a day of fasting and prayer for the people of Kansas. He says

Are You Ready For the Harvest? 1895.

There's only one way to get ready so that you can be sure that you are ready—and we are ready to get you ready with the World-Beating.

that everything is going to the demnition bow-wows and the reason is that Kansas has been forsaken by the Lord. And he does not stop with the ills which we already bear, but says that worse is yet to follow unless Kansas at once makes her peace with the divine ruler. "The people have forgotten God, and God has forgotten the people," declares this Sherman county prophet of evil, "and we must stop trying to run on our own hook and return to the Lord."

Mr. Clifford then reproduces some history of the world, which shows, he says, that nations and states always fall by the wayside when they get too frisky without the Lord's consent. He says Kansas has grown entirely too frisky, and that the only way to break the drouth is to pray and fast. He adds that he thinks the Lord would look upon a proclamation from the governor for a fast day as an evidence of repentance.

The governor has replied to Mr. Clifford that he does not see the special need for a day of fasting and prayer at this time, and suggests that the Sherman county alarmist assume the task of intercession with the Creator.

RUSSELL SUICIDES.

The Ex-Mayor of Lexington Weary of Living.

A BULLET INTO HIS BRAIN.

The Act Committed Early Last Evening—Despondency Said to Have Been the Cause.

Special to the DEMOCRAT.

LEXINGTON, Mo., May 16.—Last evening at 8:15 o'clock, while sitting in a chair in the dining room of his residence, corner of Main and Seventeenth streets, ex-Mayor C. Ben Russell, an old and well connected citizen of Lexington, placed a 32 calibre Smith & Wesson revolver to his right temple and sent a bullet into his brain. His death must have been instantaneous.

For some time he has been despondent, owing to his failure to get sufficient business to enable him to live as he had been accustomed to. In addition to this, he left letters stating that he was largely in debt and saw no way of paying off his indebtedness, and that this was a heavy burden on his mind.

He had twenty-four letters in his coat pocket addressed to various friends in this city, which shows that death by his own hand was premeditated, and that three or four days had been spent in writing them.

He left a request that his remains should be interred by the Masonic fraternity of which he was a member.

He also requested that six ex-mayors of the city should act as pall-bearers, and named them. He was also a member of the A. O. U. W., and had some insurance in this order. He was a fine business man, possessed in his day of much energy and has done good service as a citizen and public officer. He leaves a widow, four daughters and one son, all grown.

ATTEMPT TO RAVISH.

Presence of Mind and Nerve Alone Saved the Girl.

An unknown tramp made an effort to ravish the 18-year-old daughter of Tom Bearden, of Ash Grove, about a mile and a half southeast of that city yesterday afternoon at about 2 o'clock, says Wednesday's Springfield Democrat, and about thirty minutes later the entire community were in arms, and a posse headed by Dr. Dorrell were searching for the fiend. The posse failed to find him last night, and had they succeeded it is not unlikely that they would have taken the law in their own hands and disposed of him in Texas horse thief style.

Miss Bearden was a short distance from her home yesterday afternoon going to a strawberry patch. She had to pass under a high railroad culvert to get to the berries, and there the tramp surprised her. He threw her down and choked her to some extent, but was unable to prevent her from screaming. In some manner she succeeded in releasing herself from the would-be ravisher's grasp and started running towards her house, but the tramp was evidently afraid to follow.

When she reached the house she fainted and fell on the floor, but in a few minutes consciousness was restored and she told her father of the adventure. She was unable to give any description of her assailant further than that he was a white man and a tramp.

Tom Bearden, the father, armed with a Winchester rifle, started on a hunt for the fiend as soon as the girl was able to tell what had happened. He also told everyone he would meet of the attempted rape, and in a few minutes the news had spread all over Ash Grove, and the entire community were armed and in pursuit.

Many of the persons who joined the hunt were mounted and out until late last night, and the search will be continued today. Ash Grove was wild with excitement over the matter. The few who stayed in town would do nothing but talk of the dastard's attempt and speculate on his chances for life when captured. Business was practically suspended.

Arranging for Excursions.

At a meeting of Real Estate Exchange, Wednesday afternoon, Ben Hammett and W. J. Cobb, representing St. Louis real estate men, were present to make a proposition to run at least two excursion trains per week from all parts of Missouri and from other states, the trains to

bring not less than 3,000 persons into Sedalia each week.

As a committee to draw up a contract and make all other necessary arrangements between the real estate men of St. Louis and the real estate men of Sedalia the following gentlemen were appointed: Judge Z. F. Bailey, J. M. Offield, Jos. Donnohue and J. B. Quigley.

ROCKVILLE ITEMS.

A splendid rain fell here Wednesday, greatly to the delight of our people.

S. M. Doyle's bank and the Bank of Rockville are doing a splendid business.

We congratulate ourselves on having the finest and most commodious Odd Fellows' hall in Bates county.

Rockville is improving wonderfully—four or five new stone buildings will be completed in our city by the 15th of September.

Mr. Toliver has rented the north store room in Baldwin's opera block and has it filled with a fine lot of spring wagons, buggies and surries.

John Mack has just completed his residence on West Park avenue. He is now possessor of a handsome home, modern in every particular.

Our carpenters, plasterers, painters, paper hangers and lumber merchants have all the business they can say "grace over" at the present writing.

J. W. Anderson, our "up-to-date" druggist, is building a nice three-room addition to his already magnificent residence on North Missouri avenue.

The Commercial house has been doing a "land office" business during the last month and its efficient clerk, Wm. Ed. Ashby has had but little time to take it easy.

L. M. Wilson has just opened up a livery stable, and his competitor, Mr. A. J. Ooley, gives him a cordial welcome, and says Rockville is the best town in Southwest Missouri.

William Kamm, knight of the anvil, has thoroughly renovated his residence property, and has built a modern porch on the south. He has the most attractive home in Rockville, and a business that rounds much credit to the gentleman.

Mr. Thomas P. Satterwhite, of Sprague, Mo., has taken charge of the lumber yard, and is a gentleman of fine qualifications. He says he is well pleased with our city, and will in the near future build a fine residence here. He is a nephew of Tom and Gill Saterwhite, of Dresden, Mo.

J. W. Feters, of Amsterdam, Bates county, Mo., was in our city yesterday looking up a mill site. He gave us his plans and specifications and the terms upon which he would build us a nice flouring mill, 50 barrel capacity. His offer was accepted, and unless some unforeseen complications "set in" we will soon have a large mill running in Rockville day and night with a 50 horse power engine, the whistle of which will, no doubt, be a great benefit in waking up some of our good fathers after their better half has made the fire and cooked breakfast for them "in the morning."

An Editor Arrested.

Some months ago W. A. Pyne, of St. Francis, Kas., arrived at Paris, Mo., and established a populist paper which he called the Plaindealer.

Tuesday Deputy United States Marshal Shelby, of Chillicothe, son of Gen. Shelby, went to Paris and arrested Pyne on a charge of forging a pension certificate in Kansas in 1892. He was taken away the same day, leaving his paper to be gotten out by his wife.

He has had an up-hill pull, having been up before the federal grand jury twice on the same charge.

His Eyesight Impaired.

A young son of G. C. Rothwell, of near Dresden, met with a painful accident a few days ago, which came near costing him a good right eye. While placing the harness on a horse, a buckle struck him in the eye, making a dangerous wound, which perforated the cornea. He was brought to Sedalia yesterday and placed under the care of an oculist.

High School Contract Let.

The school board met at 4 o'clock yesterday afternoon and the contract for building the new high school was conditionally awarded to Theodore Lacooff, of Nevada. The board has not yet decided whether to use stone or brick, and on this clause is based the condition of Mr. Lacooff's contract. The price was not made public.

THEY LYNCHED THREE.

Revenge by Friends of Murdered Indian Territory Outlaws.

GUTHRIE, O. T., May 16.—Friends of Newcombe and Pierce, the territory outlaws, who were betrayed by supposed friends and cowardly assassinated near Ingalls, two weeks ago, have avenged the death of their comrades. According to the story of a courier who came in from Ingalls, John, Calvin and William Dunn, have been lynched by a number of the dead outlaws' friends.

At the time of the killing, local detectives took upon themselves the glory for the capture of the outlaws and put in claims for the large rewards. A week ago, however, the Duns, at whose house near Ingalls the outlaws stopped on the night of the killing, were charged with betraying them into their home under the guise of friendship and, after getting the two desperadoes drunk, riddled them with bullets as they slept. They had, it is said, been promised large sums of money by the detectives who had claimed the reward.

The friends of Newcombe and Pierce openly swore revenge. The Duns barricaded their place, secured a substantial supply of arms and ammunition and made their ranch a veritable arsenal. They laid low until Sunday, says the courier, when some of them were seen about the place, apparently void of fear, and believing that the expected raid was a bluff. The act, it appears, proved fatal, and the three brothers were easily taken by their enemies.

Late Sunday night a body of heavily armed men drove up to the Dunn cabin and forming a cordon around it, called upon the brothers to come out and surrender themselves, the marauders having previously fired a volley into the air to awaken their intended victims. When the Duns—John, Calvin and William—saw the number of those without, they readily realized the uselessness of making a fight and they quickly surrendered.

The women folks tried to dissuade the captors from carrying out their purpose but were rudely pushed aside. The Duns were placed upon horses, and being told not to make an outcry, were hastily driven off toward the mountains. Since then nothing has been heard of the band or its captives and the general opinion is that the Duns have been lynched, as the feeling against them was most bitter. Searching parties are out looking for the bodies, but as the desperadoes probably took the victims to one of their mountain rendezvous, the prospect of tracing them is small.

CARE OF SILVER PLATE.

Too Much Polishing Destroys Its Greatest Beauty.

Connoisseurs of silver plate will tell you it often suffers from over-polishing, while the average British householder will say it cannot be powdered and leathered too often. You may depend upon it the expert in this instance is right. Too much polishing not only injures its surface, but makes it look like an absolutely new article just sent home from the silversmith's. One of the best-known connoisseurs would never have certain of his bits of plate—which had an artistic and antiquarian value—touched, and very beautiful were the tints of orange and purple and green and flitting tints of prismatic hues that they eventually assumed. You have no idea how beautiful untouched silver becomes unless you have seen it, for underlying all these various colors the silver seems to gleam, which gives a richness and a peculiar character to the whole. People often make a mistake in regard to plated articles, especially if they are old and plated on copper. Directly the copper begins to show they send them off to be replated, and they come back looking as gleaming, as bright, as bumptious and offensive as new Britannia metal. There is nothing so delightful, especially if the piece is of good form and elaborate workmanship, as the rosy copper combined with the white silver. It gives an indescribable richness to the whole. Once people could get rid of the idea that the appearance of the copper was symbolic of shabbiness, or a proclamation to the world that the plate was not what it was supposed to be, they would see the beauty of the combination of the two metals and never send it to be replated.—Graphic.

A WORLD OF WORDS.

The English Language Contains Over 200,000 of Them.

And Yet the Most Fluent Public Speakers Rarely Have a Vocabulary of More Than 500—Some Wonderful Figures on the Subject.

The philologist, an American, said: "I admit that you speak English well, with a slightly foreign accent, of course, though 26 years in this country; but your entire vocabulary is less than 200 words. And do you know how many words there are in the English language?"

"Not so many as in Italian, I am sure," returned the distinguished singer, a foreigner. "In my country we have the low Italian and the pure Italian, made up of the Latin and the Greek, and the words—there are thousands of them. Why, it requires a whole lifetime of earnest, hard work to master our language. In America you have but English words, and there are not many of them. I think your language very easy."

"Yet you are not familiar with 300 English words, and there are nearly 70 times 300 of them. We have about 200,000 words in our language."

"Impossible! There is living no man who can remember so many as 200,000 words of any language. Can you name one who knows so many words?"

"Neither living nor dead. Even Shakespeare, the greatest of English writers, knew but 16,000 words. Milton struggled along on 8,000. Many other great writers used less than 5,000. The average educated men of the day, the graduates of the great universities, get along through life with a vocabulary of 2,500 or 3,000 words, and use only a fourth of them except on state occasions. Men use more words in writing than in speaking. In ordinary conversation few use more than 400 or 500.

"We have built the English language upon a foundation of all the tongues of the earth. By and by English will be the universal language. In 3,000 years you will hear nothing else spoken.

"There being no new lands to settle we will no longer require different tongues. We want to get together once more and speak a common tongue. The English speaking race is the strongest on the earth to-day, and will eventually rule the world.

"In the beginning of the present century English was spoken by only 20,000,000 people. It is the language to-day of more than 120,000,000 persons. It is not only rapidly becoming the common language of the world, but the polite tongue as well.

"The traveler finds to-day English well spoken in all the capitals of Europe, while 10 years ago it was impossible to get along without a knowledge of French. English is being taught in all the great universities of the world, modern educators conceding it to be the coming language."

"And yet, with 120,000,000 persons speaking it, you use ordinarily less than 1 of 1 per cent. of the words. Of what use can the other words, so many of them, be? Why do you continue to increase the number of words so rapidly?"

Before the philologist could reply a man approached the table and bowed to the foreigner, who said: "Hello, Charley," and asked him to sit down, after presenting him to the philologist.

"Gentlemen," he began, "your conversation on the subject of words and their uses interested me, and I couldn't help coming over to say something of a practical nature. For seven years I was a stenographer and reported in that time many of the best speakers in this country. "In our system we have 245 individual characters, or signs, which we are required to learn by heart and remember. Each sign has its particular meaning. Words or expressions not covered by them we are expected to invent ourselves.

"Now with such a system we are enabled to tell accurately the number of words used by an orator in the course of a public speech. Henry George uses about 550 words. Chauncey Depew uses less, I should say not more than 450. Mr. Blaine was a fluent speaker, always clear and to the point, with a vocabulary of less than 500 words.

"In his great speech before the New England society, Henry W. Grady used only 400 words. Col. Ingersoll is one of the purest speakers in this country; I do not think he uses more than 400 words."—N. Y. Recorder.

THOROUGH HONESTY.

We Use the Word Too Exclusively in a Commercial Sense.

We use the word honesty too exclusively in a commercial sense; we do not recognize its ethical relation. We fail to see that our thoughts must be supervised if we fail to realize the true ideal of the word. For thorough honesty involves a dispassionate, impersonal relation maintained toward every activity and interest in which judgment should control emotion and prejudice. Honesty demands the impartial attitude; it compels a trinity of relationship. Each man becomes complainant, defendant and judge; and his decision and his attitude after his decision mark the degree of his honesty. Honesty implies the compulsion of the will to work in harmony with a decision taken when all sides have been brought to the bar of judgment unbiased by prejudice. How much of the friction of life would disappear, how much nerve energy would be conserved, if each of us held that mastery of self which would compel us to obey the highest in us! A victory which involves a violation of our sense of right is a violation of life's principle and can never bring success. For success, whether we realize it or not, is secured only as it is built on righteousness. Pettiness, self-seeking, arbitrariness, undue ambition with self as the object, never bring success. Self abnegation is not only the law of life, but the only law whose operation makes it possible for honesty to work on character with absolute freedom from selfish elements. The mental vision is clear and strong only as honesty is the keynote of character; and on this clearness of vision depends the whole relation of man to himself, his home and his neighbor. His relation as a citizen, as a worker for men and among men, depends wholly on his ability to deal impartially, impersonally, with every question which depends on his decision, his vote, or his influence.—Outlook.

Origin of the Blouse.

After the fall of the Roman empire the sexes started about fair in the matter of clothes. Our Teutonic ancestors adopted a costume which was almost the same for men and women, and consisted of two main garments, the Roman tunic and toga. The tunic was virtually a shirt with long sleeves, and was buckled at the waist. The men wore it reaching to the knee and the women to the ankles. In colder northern latitudes the men, as a great innovation, added trousers, but these were looked upon in the light of a distinct extra, and were not considered obligatory in hot weather. There seems to be no doubt that the blouse of the modern peasant is a direct descendant of the tunic.—Lippincott's Magazine.

The New Fad in Art.

Aubrey Beardsley, whose capacity for making the grotesque in art attractive has made his name a household word on two continents, is only twenty-two. His entire artistic training was embraced in two years' service as a draftsman in an architect's office. Our American Beardsley—Will H. Bradley—is not many years older, and most of his art training was received in a map publisher's office. His first ventures with his pencil were illustrations for advertisements, from which he speedily progressed to the striking posters and magazine covers that pleased the public eye as soon as they caught it.—Leslie's Weekly.

He Preferred Death.

The vessel was going down and only one man remained on board the ill-fated craft. "Hurry," cried the captain, "or you will be lost."

"Is my wife there?" the man asked. "Yes, and she is crying for you."

"Say farewell to her for me. I shall go down with the boat."

"What is the reason of this madness?" cried the captain.

"Well, if I'm saved I'll have to explain it to my mother-in-law why I didn't have sense enough to take a boat that would not sink, and so I prefer to go down. Farewell."—Syracuse Post.

A SENATOR KILLED.

Sudden Death of Senator Peter R. Morrissey.

HE WAS SHOT BY A WOMAN

The Murder Occurred in a Disreputable House in St. Louis—How Legislation is Complicated.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 13.—News of the death of Senator Peter R. Morrissey, of the Thirty-First St. Louis district was received here today. He was shot and killed by a woman in a disreputable house in St. Louis about 3 o'clock this morning.

The death of Senator Morrissey greatly complicates legislative matters just at this time. It leaves only eighteen democrats in the senate, just enough to pass a bill, but Senator Ballard is confined to his bed, thus leaving the democrats with only seventeen senators upon the floor, or one short of a constitutional majority.

Was Murdered While Asleep.

Special to the DEMOCRAT.

ST. LOUIS, Mo., May 13.—Senator Morrissey was shot while in bed at Maud Lewis' house, No. 2719 Wash street, at 3 o'clock this morning. One bullet entered at the right of the eye and the other penetrated the left corner of the mouth.

Morrissey had gone from his saloon to the woman's house, where a quarrel followed. Then he went to bed and was asleep when murdered. He had been a lover of the woman for several years, but lately had tried to rid himself of her. She was infuriated and pursued him constantly.

The murderess was formerly the wife of a St. Louis contractor, but at his death began a life of shame. She is 37 years of age, weighs about 200 pounds and still shows features of a once handsome woman. She will plead insanity, having visited Dr. Mard's office a few days ago, complaining of head trouble.

LOVED NOT WISELY.

Laura Wayne Committed Suicide to Hide Her Shame.

She loved not wisely, but too well. In consequence she preferred to take her own young life rather than to suffer the consciousness of her own secret guilt and the perfidy of the man who betrayed her. Such was the fate of the young Henry county woman referred to in the SUNDAY MORNING DEMOCRAT.

Laura Wayne was of a good family, pretty and 20. She was the petted daughter of loving parents, and was allowed to do about as she pleased. When her parents removed from Lucas to Oklahoma some months ago, she remained with relatives in Henry county.

Dr. Miller, of Maysburg, visited her regularly, and it was reported that they were engaged. Some weeks ago Miss Wayne went to St. Louis with the expressed purpose to visit relatives. After about six weeks' stay she returned home, and the doctor renewed his visits. Nothing unusual happened until last Friday morning, when the young lady was found hanging from a rafter in the attic, dead.

An autopsy revealed the fact that a crime against nature had been committed about three weeks ago. The verdict of the coroner's jury was that she came to death by her own hand. Soon after the girl was found dead Dr. Miller passed the residence, and, though he was invited to stop and assist in the attempt to resuscitate her, he refused, saying he could be of no assistance.

WAS IT SET ON FIRE?

The Burning of Charles Dittler's Residence Sunday Morning.

The belief now prevails that the fire at the residence of Chas. Dittler, No. 407 East Broadway, at 3 o'clock Sunday morning, as chronicled in the SUNDAY MORNING DEMOCRAT, was the work of incendiaries—probably tramps, who had broken into the house and helped themselves to provisions during the absence of the family, after which the torch was applied.

The alarm was turned in from the electric light plant. When the firemen had finished their excellent work two coal oil cans with the taps removed and almost empty were found in the sitting room on the ground

floor, while the smell of oil was strong, as if the entire room had been saturated with it. Further, there were remnants of food scattered about, as if a meal had been partaken of quite hastily, after which the guests departed without putting things in their accustomed place.

The cigar or cigarette theory as to the origin of the fire is no longer entertained for an instant. The house was insured for \$1,500, the furniture for \$675 and the outbuildings for \$200, in the Continental, of New York, of which Espenschied, Donnohue & Hughes are agents, and this will more than cover the loss.

WILL MEET HERE.

The Missouri Trotting and Pacing Horse Breeders' Association.

There will be a meeting of the Missouri Trotting and Pacing Horse Breeders' association at Sicher's hotel on Wednesday, the 22d inst., at 10 o'clock a. m., for the purpose of receiving bids and making definite arrangements for a meeting at some point in the state during this summer or fall and for the transaction of such other business as may come before the association. In a letter to the DEMOCRAT President Norman J. Colman says:

"All members of the association and others interested in the trotting horse of Missouri, and who feel that we should and may occupy a prominent position among the breeders of the world, are solicited to attend. Those who are not members are urged to unite with the association and aid in such advancement as the interest in this state and a return to remunerative prices may demand.

"There will also be a meeting of the executive committee and each member is urgently requested to attend. We would also request the attendance of such members of the Saddle Horse Breeders' association as can make it convenient, and would especially request the attendance of their executive committee."

FROST AREA EXTENSIVE.

The White Mantle Extended Over Fifteen States.

CHICAGO, Ill., May 13.—The weather bureau, in a report on the frost Saturday night, says: The frost area reported is unusually extensive and severe for this time of the year, frost having occurred in all of the fifteen states for which it was forecasted Saturday.

In the peach belt of Michigan and the cranberry marshes of Wisconsin, temperatures below freezing occurred, and the freeze was of a killing nature. Frost of more or less severity occurred throughout the states of the upper lake region and the upper Mississippi valley, on the east slope of the Rocky mountains and in Montana, Wyoming and Colorado.

BRICK BUILDING COLLAPSES

And Five Workmen Buried Under the Ruins at Chicago.

CHICAGO, Ill., May 13.—By the collapse of a brick building in process of being torn down, at 53 Market street, yesterday afternoon, five men were injured, while nearly a dozen others had narrow escapes.

The injured were buried under a mass of bricks and mortar. The firemen responded to the call and soon dug them out, and they were sent to the hospital.

Although the men are badly injured, it is not thought any of them will die.

Another False Statement.

Here is another false statement from the Jefferson City Courier in relation to this afternoon's ball game to be played there:

"Monday the game is with the Sedalia club. No doubt many Sedalians will be present to witness the downfall of the Future Capitals. This game will be hotly contested, and it is understood Sedalia has engaged several St. Louis professionals to fill in.

The nine that is representing Sedalia in the prison town this afternoon has played here in every game since the season opened and will continue to play here. No player from St. Louis or any other place has been engaged to "fill in," and the Courier knows it.

Arrested on a Telegram.

Robert Feazell, a widower and about 35 years of age, was arrested at Hotel LeGrande Sunday night by Officer Jackson, on a telegram from Joplin, charging him with having obtained money there by false representations.

The prisoner denied his identity, but weakened when searched and papers of identification were found on him.

THAT FATAL WRECK.

Two of the Men Who Caused Fireman Fleck's Death Sentenced.

TERRE HAUTE, Ind., May 14.—William Sourwine, one of the five men indicted for murder for causing the death of Engineer Meohrman and Fireman Fleck, by wrecking the Big Four train at Fontainet during the strike last July, was sentenced to ten years in the penitentiary yesterday on a plea of guilty. George Roberts, another of the wreckers, who gave the state valuable assistance in ferreting the conspirators, and who was given a verdict by a jury of life imprisonment on a plea of guilty, but on whom sentence was not passed, was sentenced by the judge to eight years. The other three men will be tried in June.

Anyone who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionary establishment. Some months ago, on leaving the heated work room to run across the street on an errand he was caught in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle in the house.

Saved by a Fish Hook.

HINTON, W. Va., May 14.—About 4 o'clock Sunday morning Miss Lelia Clayton, the pretty 18-year-old daughter of Andrew Clayton, of Honacker Station, rose and, after writing two notes to a young man supposed to be her sweetheart and with whom she quarreled went to the river and plunged in. It happened that several fish hooks had been set close to the shore, and on one of these her clothing caught. A railroad watchman heard the splash and ran to her assistance, and succeeded in getting her out. She was unconscious for two hours, and is in a serious condition from the nervous shock.

Smeltermen's Strike Ended.

PITTSBURG, Kas., May 14.—The smelter strike is settled in Pittsburg, as Robert Lanyon put his men to work yesterday at the increased asked for. Other furnaces in the district will follow, with the exception of the Cherokee, which is dead, the fires having been pulled and the works shut down permanently. The results of the strike are that the price of spelter has advanced, the men have received increased wages and the workmen of the Cherokee company in this city, who started the strike, are out of a job.

Indianapolis Bank Wreckers.

INDIANAPOLIS, Ind., May 14.—The trials of Francis A. Coffin, Percival B. Coffin and Schuyler C.

Haughey, charged with complicity in wrecking the Indianapolis National bank, have been postponed by order of Judge Baker, of the Federal Court, until Sept. 10. The reason for the court's action is that the appropriation to pay Federal witnesses has been exhausted, and no more money will be available for the purpose until July.

"SELFISH SPECULATORS."

How the Capital Was Removed from St. Charles to Jefferson City.

To the Editor of the DEMOCRAT:

When the capital of the state was moved from St. Charles to Jefferson City, the people of the former place felt something like those of the latter place now do.

In Beltrami's "Pilgrimage in Europe and America," published in London, 1828, I find a letter written in 1823 from St. Charles, which was then the capital of the state.

He said that it was a handsome little town, and "by its situation it would seem destined to become a place of great importance; and its progress would be still more rapid than it is, but for the conspiracy of a few selfish speculators to remove from it the seat of government, in order to fix it at the mouth of the Osage, about 300 miles farther up; the object of which is to increase the value of considerable grants or acquisitions of land, which they have obtained there at different times by different means."

A Popular Cape.

It happened in a Columbia car the other afternoon. The car was well-filled when it started. As it drew on toward Fountain square, however, the crowd thinned out, until there were but five ladies on one side and four men on the other. At Race another lady got in and sat down beside the others of her sex. A moment passed and then the six looked at each other slowly, one after the other, and at their wraps. Then the six blushed and moved uneasily in their places. Then they looked out the windows and pretended to see nothing at all. By this time the men began to notice that something unusual was going on, and they looked gravely up and down the line to find the cause of it. It took another square for them to do so, but when they did the young man smiled, and so did the three old ones. This was too much for the ladies, and they smiled, too, until a ripple of feminine laughter went down the car. Then they felt better, notwithstanding the fact that everyone of them had on Astrakhan capes, cut alike and made so in every particular.—Cincinnati Tribune.

Her Unique Idea.

A clever up-to-date woman, looking about for an occupation, found she could make a place for herself and money at the same time by undertaking to buy books, and find references for men of business. As a result she is to-day quite the most unique book agent in the United States. Her business has grown and with it her income. She is a charming, well-dressed young person, with an ever-present fund of information. But the story in her own language is as follows:

"I have opened my office in the very heart of the busy district of town. I have personally solicited the patronage of business men, making lawyers a specialty, for I find my best revenues come from that quarter."

Forgot the Slurs.

A Kansas City organist, who occasionally tries his hand at arranging music per occasion, found himself in a somewhat ridiculous position recently. A friend of his, a tenor, promised to sing the offertory for him one Sunday, and for the service the organist selected a melody from Flotow's "Martha" and set it to words ending: "Before Thee, our Creator, we bow." But he neglected to attend to the slurs in the music given the singer, and the result was that to make both ends meet the singer delivered the wail to the audience: "Before Thee we bow—ow—ow—ow—ow."—Kansas City Star.

A Patent Medicine Fiend.

Queen Victoria is something of a hypochondriac. It is not generally known, but it is a fact, that she has a fondness for trying patent medicines for her rheumatism and other bodily afflictions. She uses a good deal of secrecy in thus dosing herself, in order not to give offense to her court physicians and to furnish no free advertisement to the medicine with which she is experimenting.

DON'T STOP TOBACCO

ITS INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted.

Ask your druggist about BACO-CURO. It is pure vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure,) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Office of PIONEER PRESS COMPANY, C. W. HORNICK, Supt.

Eureka Chemical and Mfg Co., La Crosse, Wis. St. Paul, Minn., Sept. 7, 1894.

Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keely Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco Curo." Three weeks ago today I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco Curo" simply wonderful, and can fully recommend it.

Yours very truly, C. W. HORNICK.

REASON DETHRONED

The Sad Fate of the Author of "The Twin Hells."

INMATE OF AN ASYLUM.

Opiates Have to Be Administered to Keep Him from Talking Temperance Constantly.

The doctors at the Osawatimie, Kas., Insane asylum keep John N. Reynolds, famous as an ex-convict, known to many in Sedalia, under the influence of opiates about half the time. They have to do it to prevent him from talking himself to death. He wants to make speeches day and night.

One morning he commenced to deliver a temperance lecture and did not quit for twenty-seven hours, and only then when he fainted from hunger and exhaustion. He weighed 200 pounds when he entered the asylum. He has talked himself down to 120.

Reynolds is the only man in the United States who ever ran for senator while an inmate of the penitentiary. He was formerly president of a bogus live stock insurance company at Atchison. He advertised the concern extensively, and was sent to the penitentiary for the fraudulent use of the mails. He claimed that his enemies were persecuting him, and to test his standing in the community announced himself as a candidate for state senator. He received 500 votes.

Upon his release from prison Reynolds wrote a book about penitentiaries of Kansas and Missouri. It was entitled "Twin Hells." Reynolds cleared about \$40,000 on the sale of the books, but the money went as fast as he got it. He was a great spendthrift.

Two years ago Reynolds took the lecture platform in the interest of prison reform. He kept this up six months, and then his mind went wrong. One day while making a speech on a street corner in Houston, Tex., he became a raving maniac and was sent to his family at Atchison in chains. Shortly thereafter he was placed in the asylum.

Reynolds is 46 years old. He has been a lawyer, a preacher, a banker, a farmer, a school teacher, a contractor, an author, a merchant, an editor, a lecturer and an actor. He has a wife and five children at Atchison to whom he was devoted.

After his term in the penitentiary Reynolds always lectured in prison garb.

WANTS NO OFFICE.

Hon. Jno. T. Heard Corrects an Erroneous Statement.

Under date of Washington, D. C., May 9, Hon. John T. Heard writes as follows to the editor of the DEMOCRAT:

"My attention having been called to a dispatch from Washington to a Kansas City paper, and reproduced in your own, to the effect that my friends are trying to secure for me the appointment of deputy comptroller of the treasury, I desire to say that such is not the case.

"I am not an applicant for the place, do not desire it and would not accept it if offered me. I am not seeking or desiring any official position, and as soon as I am well enough to dispose of a little remnant of my official business here and make a visit to my physician in New York I shall return to Sedalia to stay. Yours, truly,

JNO. T. HEARD.

In the Washington Post of May 9th the following was printed:

Friends of ex-Congressman John T. Heard, of Missouri, who has been confined to his room at the Riggs, with a severe rheumatic affection, will be glad to learn that he is improving rapidly, and is able to be on the streets again. Last evening Mr. Heard said to a reporter of the Post:

"I wish you would correct a well-meant but unfounded paragraph that lately appeared in a Kansas City paper, which spoke of my absence in Washington as being caused by my candidacy for the office of assistant comptroller of the treasury. I have never had the least intention of seeking that position, or any other place under the government, and if the office were tendered me I would not accept it. My private affairs require all my time, and no sort of public service can offer the slightest attraction."

Frightful Wreck on the Erie.

HORNELLVILLE, N. Y., May 13. One of the worst wrecks ever known here took place on the western division of the Erie, three miles west of here, at an early hour yesterday morning. Fast freight No. 92 was thrown into the ditch by a broken wheel and ten cars were piled up in consequence.

One of the cars that was in the wreck was for Mercer, Pa., and contained horses that were being taken east to enter the races. There were 18 horses in this car that were attended by their grooms. Three

men were killed in the wreck and all of them were grooms. Their names are unknown. Foster, one of the managers of the car of horses, had several ribs, both arms and a leg broken. It is thought that besides this he has sustained internal injuries. The physicians say that he cannot live.

The other men, names unknown, were severely injured. Patrick Shannelle, the brakeman was thrown into the air when the accident occurred. An ankle was broken and his head was badly cut. Ten of the horses that were in the car were killed.

The debris of the wreck is piled on the track so as to block all trains from Chicago.

SEDALIA'S GUESTS.

What the "Republic" Says of the Coming Excursion.

Arrangements are now complete for the City Drummers' excursion to Sedalia, Mo., says Sunday's St. Louis Republic. Special trains will leave Union station Saturday evening, May 25, at 11 p. m., arriving at Sedalia at 6:30 a. m. Sunday, May 26; returning, will leave Sedalia at 5 p. m., arriving in St. Louis at 12 p. m., thus giving the excursionists a whole day in Sedalia.

Mayor Hastain and a committee of Sedalia citizens will meet the boys at the depot with a brass band and escort the drummers in parade to Association park, where the grand picnic will be held. Athletic sports, bicycle races and baseball will be among the attractions at the park. Mayor Hastain has agreed to turn the city over to the boys for that day.

PLAYED WITH POWDER.

Two Little Children Fatally Injured by an Explosion.

LOUISVILLE, Ky., May 13.—A special from Salyersville, Ky., says a pitiful accident occurred near there Friday afternoon, in which one and probably two lives will be sacrificed.

Two children of Wesley Row tried to start a fire by pouring powder out of a horn containing a pound and a half on a small coal fire, when the powder in the horn ignited and exploded, tearing one arm entirely off of the girl, 16 years old, and burning her hair and clothing entirely off. She will die.

A brother, a boy of 6, was standing near and parts of the horn struck him in the face, knocking out both his eyes and burning off all clothing and hair. He may recover.

PASSENGERS MADE TO WALK

Striking Conductors and Motormen Interfere With Street Car Traffic.

CARBONDALE, Pa., May 13.—The conductors and motormen, to the number of twenty, employed by the Lackawanna Valley Rapid Transit company, went on a strike Saturday and yesterday they seriously interfered with the running of the cars. The reason for the strike was the discharge of three employees, for what the strikers claim was not good cause.

One of the cars was stopped last night midway between here and Mayfield, five miles distant. The passengers were compelled to get out and walk back.

No assaults on the men who have taken the strikers' places have yet been committed, but trouble is expected if the company persists in its attempt to run cars.

Death of Mrs. M. Hatton.

Mrs. Martha Hatton, aged 65 years, died at her home in Southeast Sedalia at midnight last Saturday night, leaving two daughters and one son, all residents of Sedalia.

The deceased was one of the pioneers of the county, she having resided here sixty years, as she came from Kentucky when only five years old.

The burial service was held Monday forenoon at New Bethel M. E. church, south, a few miles south of Sedalia.

Mr. Heard Suffers a Relapse.

Ex-Congressman Heard, who has been ill here with rheumatism, after a period of apparent improvement, suffered a relapse Monday, says a Washington dispatch of the 11th. His condition is not such as to excite alarm, but his disorder is painful and persistent and he has not thrown it off with the ease that had been expected.

A Saloon Contest at Clinton.

The city council of Clinton has refused to grant a saloon license to W. J. Seiford. He has government, state and county licenses, and his lawyers advise him that he can run unmolested, after tendering his license fee to the city clerk.

AT A SOUTHERN BALL.

A Drummer's First Experience with Kentucky Fair Women.

They Said Such Things and Did Such Things That He Was Surprised—It Was All a Big Practical Joke.

"Speaking of practical jokes," said a drummer at one of the hotels the other night, "I was the victim of one of the most embarrassing I have heard of for a long time. It was during my first trip south, and, not being familiar with the people of this part of the country, I thought I had found a really sociable place, when three young 'swells' of the town with whom I had been talking the evening before asked me to go with them to a dance that was to be given at a female seminary a few miles from the city. I had been away from home for some time, and not having had the pleasure of being in the company of young ladies I was fairly delighted at the idea of spending a pleasant evening.

"I told them I would be pleased to go, and, after hurried preparation, we started. The young men laughed at the idea of my paying anything toward the carriage hire, and I felt that I had never been in the company of a more hospitable set of men.

"When we arrived at the place the dance had already begun. We left the carriage in care of a negro man and entered the ballroom. Of course, I felt very strange at first among so many strangers, but my companions seemed to feel quite at home, and insisted that I should meet some of the young women at once. One of the young men took me by the arm and led me across the room to where there sat a young woman who was rather pretty and had an extremely neat appearance.

"After receiving an introduction to her I sat down and started a conversation. Soon she was talking at an astonishingly rapid rate. I became rather interested in the girl, but was very much surprised to learn that she was the twentieth daughter of a wealthy farmer. At last she began to talk and laugh so loudly that I began to feel a little embarrassed, and asked her if she did not want to dance. She was on her feet in an instant, and we had danced a few steps when she suddenly yelled out at the top of her voice: 'Don't! Don't! Oh, don't hold me so tight. I am full of dynamite!' And she uttered a yell that made the cold chills run up and down my back.

"I turned her loose in an instant, and stood simply horrified. I felt like swearing when the other people in the room only laughed and went on dancing. I did not know what to do. I knew I had done nothing I should not have done, intentionally at least, but I started up to her with an apology, when one of my companions came up with a young woman on his arm. He gave me an introduction to her, and asked me if I would not dance the next set with her. I did not feel like dancing a bit, but there was no way of getting out of it, so I told him I would. While we were sitting down waiting for the next dance she told me she had been married fourteen times and had a thousand children at home. I thought she was just trying to joke me, and asked her where she lived. She said she lived in Heaven. I knew something was wrong with her, and I made up my mind right there that I would not dance with her. I asked her to excuse me a moment and, without waiting for a reply, rushed across the room toward the door. I thought to myself that if I once got on the outside I would never attend another 'swell dance' in Kentucky.

"I had got within a few feet of the door when an old woman ran up and threw her arms around my neck. She yelled out that I was her lost son, who ran away from home four hundred years ago, when I was a mere child. I tried to tear myself away from the woman, and she fainted at my feet. I made a dart for the door, and when I reached the threshold I looked back and saw several persons carrying her off the floor, I was dazed. I expected to be arrested every moment. I saw a man outside and asked him if there was not a train leaving that place soon. He said there would be one going to Louisville in about an hour, and I concluded to wait around the little station until it was ready to leave. I do not remember to have ever heard a more welcome sound than the whistle of that train, after spending an hour in silent misery. I reached my hotel in this city shortly after midnight, but I could not sleep. I had learned on the train that I had been to an insane-asylum ball, and I was as mad as a hornet.

"The next morning the young men came around to the hotel and apologized, and now they are the best friends I have in the city."—Courier-Journal.

THE HORTICULTURISTS.

The Monthly Meeting of the Pettis County Society.

The regular monthly meeting of the Pettis County Horticultural society was held Saturday afternoon, Geo. B. Lamm presiding and Col. Van B. Wisker officiating as secretary. There was a fair attendance and considerable interest was manifested.

Reports were made as to the condition of the various crops of fruit, viz: Apples, good prospects in Johnson county, as reported by L. T. Kirk; strawberries stood the drouth well and good crop; peaches, moderate crop; grapes, fair, but damaged some by beetles.

A resolution was adopted recommending that the state society committee on education be allowed \$100 for printing and postage for the ensuing year.

A resolution expressing regret at the removal of Prof. L. T. Kirk to Johnson county, and his withdrawal from the Pettis County society, was also adopted.

At the next meeting officers will be elected for the ensuing term.

"Agents Wanted."

WHY do people complain of hard times? When any woman or man can make from \$5 to \$10 a day easily. All have heard of the wonderful success of the Climax Dish Washer; yet many are apt to think they can't make money selling it; but anyone can make money, because every family wants one. One agent has made \$423 in the last three months after paying all expenses and attending to regular business besides. You don't have to canvass; as soon as people now you have it for sale they send for a Dish Washer. Address the Climax Mfg. Co. 45 Starr Ave., Columbus, Ohio, for particulars.

Take Santa Fe to N. E. A. THAT'S THE WAY! ducements, best of everything.

Teachers going to Denver meeting of National Educational Association, July, 1895, should write to G. T. NICHOLSON, G. P. A., Monadnock Building, Chicago, for descriptive circulars—they tell the story of the best line, best equipment, best scenery, best inducements, best of everything.

A CLUB OF MISFITS.

Poor Old Jefferson City's Alleged Players.

HAD ONLY TWO GOOD MEN.

And They, By the Way, Were Imported for the Occasion—The Result of Monday's Game.

There was neither music nor flowers, and the interment was conducted without the benefit of prayer or clergy. The slaughter had been frightful, and the nine stiff presented a sorrowing spectacle as the earth was spread over them. It was simply awful, and even at this distance and late hour the DEMOCRAT desires to extend its sincere sympathy to Eph Ewing, Ed Miller, Ike Bodenheimer and others who are so unfortunate as to reside in the village where the misfits formerly held forth.

Reference is had to the Sedalia-Jefferson City ball game of yesterday, in which the Future Capital mopped up the earth with the Present Capital by a score of 27 to 4—just as Sedalia proposes to mop up the earth with Jefferson City at the polls in 1896.

A SPLENDID CROWD.

Sleepy Hollow no longer has a rabbit farm for a ball ground. The field of Monday, known as Sportsman's park, is one of the few things creditable to the village. The grounds are securely enclosed, while inside is a grand stand with a seating capacity of 300 or 400, and bleachers capable of seating double that many more. Every seat was occupied, and scores of people were unable to find other than standing room, so it is estimated that not less than 1,500 persons witnessed the game, many of whom were ladies.

A SNAP SCHEME.

By the way, ladies are admitted free to the grounds, but they are charged 25 cents admission to the grand stand. Men are charged 25 cents for admission to the grounds and 10 cents extra for the grand stand. The home team or owners of the park reserve to themselves the grand stand receipts. No visiting club gets a share, this being in the contract. This is a smooth scheme to get the best of the visiting nine. If admittance was charged to the grounds for ladies, Sedalia would have received more than \$104.80, the amount paid Manager Harrah yesterday, it being 60 per cent of the gate receipts. Ladies were passed into the grounds free, however, but paid 25c before stepping into the grand stand, and this 25c went to the Jefferson City gang of financiers. Great schemers, sure!

ONLY TWO PLAYERS.

The Jefferson City club of yesterday has no claim whatever to consideration as other than a scrub nine. Outside of its imported battery from Fulton—Coleman pitcher and Berry catcher—it would hustle it to defeat the Hannibal or Independence teams. It is no such a nine as the town boasted of two or three years ago, or even last year. The battery did the only creditable work for the penitentiary town. Atkinson, at second, another imported player, was lamentably weak, he making no less than six errors, as was also Calvin, at short, the fourth outsider called in for the purpose of assisting in smearing it all over Sedalia.

NEEDED BASKETS.

As for the Jefferson City players proper, those who reside there, they couldn't catch a ball in a clothes basket. In fact, one disgusted resident of the town remarked that the smallpox was about the only thing they could catch.

Coleman pitched a splendid game, everything considered. With such support, many a pitcher would have laid down early in the contest, but not so with the young man from Fulton. He had remarkable speed, and fanned no less than ten Sedalians out; but he was frightfully wild, giving eleven men bases on balls. In one inning three runs were forced in for Sedalia by Coleman's wildness, the bases being full when the fourth ball was called on the pitcher. Berry was all right behind the bat, but he and Coleman are the only ones in the nine deserving of favorable mention.

BETTING ON THE GAME.

Sedalia was prepared to gobble up whatever money was in sight, but the dollars were few and far between. Billy Harrah and John McMahon placed small rolls on their

favorites, but had to give odds of two to one, and after the third inning offered \$10 to \$3, but there were no takers. It will be remembered that prior to the game Secretary Preismeyer, of the prison town team, wrote that Sedalia could have her choice of 50 per cent of the receipts or 60 to the winner and 40 to the loser, as Jefferson City was "not out for the stuff," and the result of the contest yesterday convinced all that "Jeff" would never take the 60 per cent end of it in a game with Sedalia.

NO GUYING.

Ernest Clark, who scored for Sedalia, had a narrow escape from being ejected from the grounds. In the third inning he applauded a play made by a Sedalian, which aroused the ire of a 2x4 Sleepy Hollowite with a bay window like a beer keg, and the genial scorer was informed that no such conduct would be tolerated. Then the entire Sedalia contingent went to Ernest's rescue, and the guying that the 2x4 individual received caused him to close up like a clam.

It was Sedalia's day to howl, and her representatives did it to the queen's taste. On several occasions during the game a Jeffersonite would let his temper get a little the better of him, and reference was then made to Sedalia's "bond scheme" to remove the capital, but all such individuals would sneak away when the Sedalia crowd would produce a roll of bills and exclaim, "This is the stuff that gets the capital. Do you want to bet anything on your club?" Even this rejoinder could not get a Jefferson City dollar to show itself after the third inning.

The original intention of Jefferson City was to have Billy Koecher, a home man, umpire the game, but Mason was finally substituted and he umpired splendidly throughout. In the third inning Ed Miller, one of the managers of the club, made a grand stand kick on one of Mason's decisions, when Manager Harrah exclaimed:

DIDN'T TAKE IT.

"If you don't like his work, put in your own man. We don't want anything that isn't right. Call your own umpire, and then I'll bet you \$100 to \$50 that Sedalia wins the game."

Of the Sedalia team, all played elegant ball. The boys were out for blood, and 60 per cent on the side, and they got both. In the fourth inning Hoover had one of fingers badly hurt by being hit by the bat, and in consequence he retired in favor of Roach, the latter being relieved in left by Johnson.

In the eighth inning Berry, Jefferson City's catcher, was also hurt and retired, Calvin taking his place. These were the only two accidents of the game, which it required two hours and fifty minutes to play.

The official score is as follows:

THE "G. D." DISPATCH.

The Globe-Democrat of Tuesday morning printed the following dispatch from Jefferson City: "Sedalia and Jefferson City met on the ball field here today, and the consequence is there is mourning in the capital city tonight. The local team was no match whatever for the professional players of the Sedalia team, which included Charlie Hoover, the old league catcher; Freeman, who once pitched for the Browns; Swearingen and Forbes, of the Texas league, and several others. The score was 24 to 4."

A carload of rice recently shipped from Springfield went through to the consignees in New York city in seven days and three hours.

HUNTING A LOST SISTER.

J. A. Wineburg, of Michigan, in the City Looking for His Sister.

Mr. J. A. Wineburg, of Michigan, arrived in the city Wednesday in search of his sister, Miss Mary Wineburg, who was last heard of here some time in July, '94, says yesterday's Warrensburg Star. Miss Wineburg was an agent for the Taylor system of dress cutting.

Mr. Wineburg says that Mary's and her mother's home was at North Manchester, Ind., and that Mary had been traveling in this state selling the dress cutting system. "Mary," says Mr. Wineburg, "was always in the habit of writing letters home regularly until last July, when the last letter ever received was written from here."

Mr. Wineburg has made a number of inquiries since his arrival, but finds no clue to the whereabouts of his missing sister. He left on the 3:18 train for Sedalia, where he expects to resume his search.

TOOK CARBOLIC ACID.

John Shaw, of Joplin, Ended His Life in Kansas City.

John Shaw, of Joplin, about 50 years old, committed suicide at the Colorado hotel, in Kansas City, yesterday by swallowing one-half ounce of carbohc acid.

Shaw left a long letter, saying that he was a banker in Warwick township, Toronto, Canada, at one time. He failed and came to this country. He drifted westward and got employment in the smelter at Joplin, where he lost all of his money.

He charged his wife with being faithless to him, and claimed that a man of the name of William Brisson led her astray. He left 10 cents to each of his children.

SATOLLI MAKES REPLY.

He Can Not Grant the Petition of the Christian Endeavorers.

ASBURY PARK, N. J., May 15.—Mgr. Satolli has made answer to the Christian Endeavorers' memorial adopted recently at a meeting here, petitioning him to unfrock Father Phelan, of St. Louis, for his utterances touching the young people of the organization. The letter follows:

Rev. J. P. Dawson.
Apostolic Delegation, United States of America, Washington, D. C., May 13, 1895.—Rev. and Dear Sir: I received some days ago your letter with which you sent me the protest of the Christian Endeavorers against the attacks made by the Rev. Father Phelan in his paper on practices of the association, and I regret exceedingly that a question of this kind should have arisen. But after a long and careful consideration of the whole matter I feel that it is one which belongs to the most Rev. Archbishop of St. Louis rather than to me. With sentiments of sincerest esteem, I remain most faithfully yours in Christ, SATOLLI.

Dr. Dawson says that following the suggestion of his eminence, he will immediately forward the petition to the archbishop of St. Louis. Mr. Dawson also said that it was Father Phelan's official position and not the man insulting the Endeavorers of America.

WOULD BLOW UP REED.

Finding of Nitroglycerine Disturbs the Police at Portland, Me.

PORTLAND, Me., May 15.—This city was excited yesterday over the discovery of evidence which leads the police and many citizens to believe that some crank planned to blow up the residences of Hon. Thomas B. Reed and Mayor Henry Baxter.

While patrolling Deering street near the Reed and Baxter houses, Policeman McCormack found on the sidewalk an envelope containing three vials filled with a dark yellow fluid and wrapped in cotton batting. Pinned inside the envelope was a slip of paper upon which was some writing in an unknown tongue, resembling a combination of Greek and Armenian. There was nothing in English except: "M. Baxter, Feb. 123, O. U. I. 22, 23, M. Reed, Morris L. Morsrow." It was at first thought the mysterious package had been placed on the sidewalk by some joker, but when a druggist pronounced the fluid to be nitro-glycerine, the police began to look at the matter seriously. The entire police force has begun an investigation.

FRANK B. MEYER & BRO., GRAND CENTRAL, 304-306 OHIO STREET.

WANTS \$50,000.

J. B. Quigley Brings Suit Against St. Louis Parties.

The Commonwealth Land and Development Co., of this city, has brought suit in the circuit court at Jefferson City against Michael Kincaid and Thos. A. Myers, of St. Louis, for \$50,000 damages. Judge Shirk is plaintiff's attorney.

The defendants are the parties who brought suit in St. Louis against the Commonwealth Land and Development Co. for a legal opinion, the particulars of which are already known.

In the suit filed at Jefferson City the Commonwealth Land and Development Co. say that by means of the aforesaid wrongful and false publications, assertions and allegations so as aforesaid published and made, the plaintiff has been damaged in the sum of \$50,000, and has also been compelled to employ counsel to defend the suit so as aforesaid brought against it at an expense of \$1,000.

Wherefore plaintiff prays judgment against defendants for said sum of \$50,000 and for its costs herein laid out and expended.

A BLOW ON THE HEAD.

Mysterious Death of Dr. G. W. Talbot at St. Joseph.

Dr. G. W. Talbot, a leading physician of Denver, Colo., was found dead in a room in the St. Charles hotel in St. Joseph yesterday.

He arrived there Monday night, and during the night, it is supposed, died suddenly, as there were no indications of a struggle. He was on his way to Easton to visit his father, Dr. J. S. Talbot.

The coroner found that he came to his death from concussion of the brain caused by a blow on the head, but where he received it is a mystery.

Dead Train Robber Identified.

The real name and identity of the train robber who was killed in the fight with the police at St. Joseph has at last been disclosed. The man who died at the City hospital and was buried in the potter's field under the name of Tom Farrell was

Patrick Shea, and his home was in Kansas City, Kas.

There he has a stepmother and sister living, and his brother-in-law is an employee of Armour's packing house. Shea was an outcast and a fugitive from justice. Young Richard Rau was not his first victim. He was a killer by nature. He slew his stepbrother, Con McGuire, and fled a long time ago. He was a brother of a fire marshal in Kansas City.

HURT BY FROST.

The Grape Crop Is Damaged, But the Peaches Are Safe.

Monday night's frost has caused more damage than was at first anticipated.

Reports from the various fruit and vegetable regions of Missouri and Illinois indicate that hundreds of thousands of dollars damage has been done. It is estimated that the entire local grape crop has been destroyed. St. Louis commission men were visited by a grape grower from Jefferson county, Missouri, a great grape county, and his information was that the fruit was already getting black on the vines. Similar reports come from other sections. The local grape crop, which finds its way to the St. Louis market alone, is estimated to be worth \$300,000. The local apple crop has also received a severe setback, but peaches are thought to be in better condition, while there seems to be some difference of opinion as to small fruits.

The usually immense potato crop of the Illinois bottoms is sadly wrecked. A good many farmers have purchased other kinds of seeds with which to fill the ground occupied by the potatoes.

Corn is not thought to be much affected, as it was scarcely up. Most all garden truck was killed in and around St. Louis.

The school enumeration at Lexington shows a slight falling off in the number of children. The census taken discovered one good man, however, in the person of Citizen Boyle, who isn't to be blamed for such a showing. Nineteen little Boyles have called him papa, and seventeen are still living.

It is announced that Mr. H. W. Cornick, formerly of Ellsburg, has about closed a deal for a half interest in the Brookfield Argus.

TWO ATTRACTIONS.

A Ball Game Saturday, to Be Followed by Matinee Races.

The Webb City ball club will arrive here Friday and play with the Future Capitals in the afternoon and also Saturday and Sunday.

The game will be called at 1:30 p. m. Saturday, after which the usual matinee races will take place.

There will be three events, viz: A free-for-all trot or pace, a 2:40 trot or pace and a 3:00 trot or pace. In the free-for-all there will be at least four entries, viz: Collins' "McDorton," Powell's "Star Bashaw," McMahon's "Dexter," J. P. Herrington's "Albino," and a crackerjack by S. C. Fuller.

A number of prizes have been donated and an afternoon of fine sport is assured. Admission to all, 25 cents.

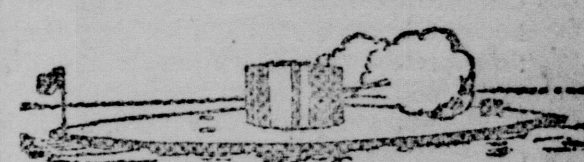

Circuit Court Proceedings.

In the circuit court, Thursday, in the case of Isaac Hatcher vs. Richard Young, et al., suit on note, plaintiff was given judgment for \$43.13.

The replevin suit of Rhodes vs. McNulty, referred to yesterday, was concluded last night and taken under advisement by the court.

Willing to Accept \$1,000.

J. West Goodwin will not appeal from the verdict of the jury in which he was awarded \$1,000 against Dr. H. W. Wood, but the latter has not determined yet as to what he will do.

SMALL BUT EFFECTIVE.

Was the Little Monitor that met the Merrimack at Hampton Roads. So too are Dr. Pierce's Pleasant Pellets, effective in conquering the enemy—disease. When you take a pill it's an important point to have them small—provided they have equal strength and efficacy. You find what you want in these little liver pills of Dr. Pierce. They're put up in a better way, and they act in a better way, than the huge old-fashioned pills. What you want when you're "all out of sorts"—grumpy, thick-headed and take a gloomy view of life, is these Pellets to clear up your system and start your liver into healthful action. Sick Headache, Bilious Attacks, Constipation, Indigestion, Biliary Disorders, and all derangements of the liver, stomach and bowels, are prevented, relieved, and cured. Put up in sealed glass vials, and always fresh and reliable.

JAMES WILLIAM CHASE, Esq., of Georgetown, Ky., says: "My wife takes your little Pellets as the greatest pills out."
